TOPOGRAPHICAL SKETCH

OF

TRAVANCORE.

DESCRIPTION.—Travancore (*Mal. Tiruvitankur, Sans. Sri-ardhanapuri*, the place where the goddess of prosperity resides), the southern portion of the ancient division of Kerala, is situated between 8° 4′ and 10° 21′ North Latitude and between 76° 13′ and 77° 38′ East Longitude. It is bounded on the north by the Native State of Cochin and the British District of Coimbatore, on the east by the Districts of Madura and Tinnevelly and on the south and west by the Indian Ocean. The extreme length of Travancore from north to south is 174 miles, its extreme breadth 75 miles and its area 7,606·30 square miles. The State is in subsidiary alliance with the British Government to which it pays an annual tribute of Rs. 8,00,000. Compared with other Native States, it is more than five times the size of Cochin and six times that of Pudukotta. It is above seven-eights the size of Baroda, two-sevenths of Gwalior, one-fourth of Mysore and one-twelfths of Hyderabad or Cashmir. It is smaller than the Principality of Wales by 279 square miles and bears to England and Wales together the proportion of one to eight.

PHYSICAL GEOGRAAHY.—Travancore is one of the most picturesque portions of Southern India. The mountains which separate it on the east from the British Districts are clothed with magnificent primeval forests, while the belt of flat country, to an average distance of 10 miles inland from the sea, is covered with an almost unbroken mass of cocoanut and areca palms which in a great measure constitute the wealth of the country. The whole surface is undulating, and presents a series of hills and valleys, traversed from east to west by numerous rivers. Nanchanad, with its numerous villages, palmyra groves and extensive paddy fields, resembles in some respects the neighbouring District of Tinnevelly. Northward, this fertile

plain is succeeded by the wooded and rugged surface of the Malayalam country. The rich and variegated tract along the coast is finally contrasted with the mountainous wilds farther inland. The hill scenery has peculiar beauties, among which are the wild, rocky and precipitous acclivities and fantastic forms of the mountains in the southern parts. The valleys are studded with temples and churches. The numerous houses and gardens scattered thickly over the country give it an appearance entirely different from that of the eastern coast.

The hill region is very extensive and is a marked feature of the country. The mountains are of every variety of elevation, climate and vegetation. Certain portions are cultivated by European and Native capitalists by whom the natural fertility of the soil is being turned to the best account. Some of the loftier mountains have a precipitous descent towards the west and are connected on that side with a succession of low hills which diminish in altitude as they approach the coast. Among the mountains a few elevated tablelands are found, which afford pasturage for cattle and enjoy a good climate for a portion of the year. To the north, the mountains rise to an elevation of 8,000 feet. The *Anamalay* mountains are the most important of these. The southernmost peak of note is the sacred *Agastiakudam* (6,200 ft.). One plateau alone (*Eravimalay* or *Hamilton's valley*) is 6 miles long by 3 wide and contains about 10,000 acres of excellent tea and coffee land. Similar smaller valleys are found in the group called the *Kannan Devan Hills*. At the head of the Travancore hills stands *Anamalay* (8,837 feet), the highest peak south of the Himalayas. South of this is the lower region of the *Cardamom Hills* so called from their special product. Still further south are large tracts of forests among which lie the *Ahamboo* coffee plantations. The Hill stations enjoy an excellent climate and are resorted to by Europeans and others during the hot season. *Peermade*, about 50 miles east of Kottayam, was once the residence of a Mahomedan saint from whom the place takes its name. It is over 3,000 feet above the sea and is the centre of the coffee and tea

planting industries. *Ponmudy*, north-east of Trivandrum, is also a sanitorium. The scenery from the heights is enchanting.

Numerous rivers run down from the Ghats and flow by tortuous courses, with high banks and rocky beds, into the backwaters and the sea. Most of these are navigable only near the sea. The most important of these rivers is the *Periyar* rising in the High Ranges, which after a course of 142 miles enters the backwater of Kodungalloor (Cranganore). A portion of its enormous volume of water is now diverted into Madura by the Periyar water-works. The *Pamba* (90 miles), the *Kallada* (70 miles), the *Kulakada* (70 miles) the *Muvattupuzha* (62 miles), the *Karamana* (42 miles), the *Thamravarni* (37 miles), the *Neyyar*, the *Minachil*, and he *Vamanapuram* (35 miles each), are other important rivers.

A succession of lagoons or backwaters, connected by navigable canals, extends along the coast, from Trivandrum northwards, forming a most important means of communication. It extends from Tirur, in British Malabar, to Trivandrum; between the latter place aud Quilon, there rises at Varkalay a high promontory of land, about 6 miles in breadth, the highest portions of which in two places have been tunnelled through and the remaining portion cut open into a canal, thus making the line of water communication complete. A strip of land, from seven miles to about half a mile wide, separates these backwaters from the sea. There are however several outlets to the sea. Alleppey, Quilon and Colachel are important seaport towns.

There are several good cart-roads in the inland parts of the country for local traffic and for communication with Madura and Tinnevelly. Railway communication between the latter town and Quilon has recently been established. As many as five tunnels had to be bored through the Ghats to extend the line from the east coast to this side.

Iron, alum, sulphur, lignite, plumbago and mica exist in the country. There are plumbago mines at Nayyatinkara and Nedumangad and mica mines at Eraniel.

The mountains and forests of Travancore afford some of the best sport to be got anywhere in India. Elephants are numerous. Tigers, leopards, bears, bison, sambur and various kinds of deer abound. Crocodiles infest in large numbers, the lakes and rivers.

The climatic variations of the whole of India may on a small scale be experienced in Tranvancore. On some of the peaks, the pinching cold of the northern regions of Europe may be felt; lower down, on an elevation between 2,000 and 3,000 feet, one meets with the bracing temperature of England; while a cloudless sky with a clear sun marks the cessation of the heavy monsoons. From January to May which constitute the months of the hot season, there is an intense and oppressive heat which at times becomes so intolerable that some of the taluks then present the aspect of a true equatorial region.

For administrative purposes the State is divided into 33 Taluks, which are grouped into five districts called Divisions.

POPULATION.—The total population of the State as enumerated at the Census of 1911 is 3,428,975. Hinduism is the predominant religion of the State. Its followers constitute about two thirds of the entire population while Christians form about a fourth and Mahomedans, one-sixteenth. Compared with other States and Provinces, Travancore is the most Christian territory in all India, if we except the sister State of Cochin which has the highest proportion of Christians in its population.

IMPORTANT TOWNS.

Trivandrum.—This town forms the southern terminus of the chain of backwater communication. It is the residence of His Highness the Maha Raja and Headquarters of Government. The celebrated pagoda of Sri Padmanabhaswamy within the Fort has made it a great religious centre and attracts pilgrims

from all parts of India. The Fort and its neighbourhood constitute the most crowded part of the town. The military cantonment, the Government Offices and other public buildings and the residences of the upper classes are picturesquely situated on small eminences each commanding a refreshing scenery of verdure all around. The town is liberally supplied with well-equipped colleges, schools and hospitals. There is a well-laid-out park, with a museum and a menagerie. It has a small seaport; but the vessels which touch it have to anchor at some considerable distance from the shore. (*Population* 63,561).

Nagercoil.—Nagercoil stands within 7 miles of the Aramboli Pass and is the only important town south of the capital. With Nagercoil as the nucleus, the town comprises a number of straggling villages, *viz*, Kottar, Vadiveeswaram, Ozhuganacheri and Vataseri. Of these Kottar and Vataseri form the trading and manufacturing centres. The town owes much of its improvement and its present position to the efforts of the Christian Missionaries. (*Population* 29,883).

Shencottah.—The head quarters of the taluk of that name lies at the foot of the Ghats on their eastern aspect. The main road that runs through it connects the British town of Tinnevelly with the port of Quilon. There are several coffee estates in its neighbourhood. The introduction of the Railway through its portals is likely to impart a powerful impetus to the development of the town. (*Population* 10,309).

Quilon.—Quilon is one of the oldest towns of the Malabar Coast. Its natural situation and consequent commercial importance made it the cynosure of every foreign power and subjected it in its early days to political vicissitudes of no mean order. Towards the middle of the eighteenth century the State of Quilon, also called Desinga Nadu, was annexed to Travancore. It was one of the greatest ports in Malabar but has now declined to a considerable extent from its high state. With the opening of the Tinnevelly-Quilon Railway, however, Quilon now finds herself in direct and easy communication with the towns

of the Madras Presidency and is likely to regain her former position as an important commercial centre. The palace of His Highness the Maha Raja on the borders of the Quilon lake, which has come to be known as the Loch Lomond of Travancore, commands an enchanting scenery. Cotton-spinning and weaving and the manufacture of tiles are its chief industries. (*Population* 18,839).

Kayankulam.—This town was formerly the capital of an independent principality of that name. In 1746 A. D., the territory was annexed to Travancore. A well-attended market is held here. Communicating by backwater with Cochin in the north and Quilon in the south and by road with Madura and Tinnevelly in the east, it was a centre of trade during the early days of the Dutch influence. A Syrian Church appears to have been built at the place so early as 829 A. D. (*Population* 5,830).

Alleppey.—This is the most important commercial town in the State. It commands a fine harbour affording safe anchorage for the greater part of the year. Opened to foreign trade towards the latter part of the eighteenth century, Alleppey has long been the premier port of Travancore. It affords a convenient depot for the storage and disposal of hill produce. The manufacture of coir-matting is being carried on, on a large scale. Cocoanut oil mills worked by steam have within recent years been established at Alleppey and the neighbourhood by native capitalists. (*Population* 25,665).

Kottayam.—This town, situated on the banks of the Minachil river, is the centre of the Syrian Christian community and possesses one of the most ancient Syrian churches in all Malabar. It was also the scene of the early labours of the Anglican Missionaries. It exhibits much educational activity and possesses a Second Grade College and four High Schools. The old Syrian Seminary, where English education is said to have been first imparted in Travancore, is an interesting institution. Standing at the portal of communication with the Peermade range of Hills where coffee and tea plantations are worked on a large

NOTE.—The official dates for closing and opening the Port of Alleppey on account of the monsoon are generally 15th May and 15th September respectively, but shipping may commence a month earlier and terminate a month later, at the discretion of the Port Officer.

scale, Kottayam serves as a convenient mart for the exchange of goods. (*Population* 15,141).

Changanacheri.—This town was once the capital of the principality of Tekkumkur. With its subjugation by Travancore its importance waned. Like Kottayam it is a centre o Christian influence and possesses the grandest Syro-Roman Church on the Malabar Coast. One of the best-attended markets in North Travancore is held here, and people flock to it from all parts. (*Population* 17,242).

Parur.—A Rajah of Parur once ruled here before its subjugation by Travancore. It is more or less surrounded by Cochin territory and at one time belonged to it. It was made over to Travancore in 1762 (*Population* 13,782).

THE SRI MULAM POPULAR ASSEMBLY,

Seventh Session.

DEWAN'S ADDRESS

GENTLEMEN,

I am directed by His Highness the Maha Raja to welcome you to the Seventh Session of the Sri Mulam Popular Assembly. Copies of the Administration Report for 1085—in English and in Malayalam—will be placed in the hands of the Members. I shall, as usual, confine myself, in this Address, to a reference to the salient features of the last year's Administration.

Casualties.

2. There were several changes in the higher ranks of the Public Service during the year. M. G. N. Krishna Rao, the Superintendent of the Revenue Survey Department, retired in Kanni 1085. It fell to this officer to complete the General Revenue Survey of the State, which had commenced over 30 years ago. Mr. S. Sankara Pillai, the Dewan Peishkar and District Magistrate of the Padmanabhapuram Division, died in Makaram. His Highness' Government lost in him an efficient and most trustworthy Revenue officer. The talented Chief Justice of the High Court, Mr. T. Sadasiva Aiyar, left on short leave in the middle of Karkadagam, and reverted to his own service soon after the close of the year. There have also been other changes, since the close of 1085. Early in Chingom 1086, Mr. O. H. Bensley, the Superintendent of Police, went on leave, and subsequently retired, after an honorable career extending over nearly 40 years. Col. Dawson, the Commandant of the Nair Brigade, left early in Kanni 1086, on leave, at the end of which he reverted to his own service.

Financial.

3. I would invite the careful attention of the Members to the Financial Review given in Chapter II of the Report. The Revenue of the year was Rs. 1,21,0?,133, and the Expenditure Rs. 1,19,20,521. There was thus a Surplus of Rs. 1,82,612. On account, however, of the Abnormal Losses, aggregating to Rs. 6,32,334 the nature of which has been explained in the Report, the balance to the credit of the Government fell from Rs. 71,95,761 at the beginning of the year to Rs. 67,46,039 at its close. The year 1085 closed a quinquennium during which strenuous attempts were made to balance the Finances, and His Highness' Government are glad to be in a position to say that these attempts have, on the whole, been successful. The weak point of the Finances is the Capital liability aggregating to Rs. 1,17,97,245, outstanding against the State, on account of the money which had been raised by the South Indian Railway Company, on the responsibility of His Highness' Government for constructing the Railway line between Shencotta and Quilon. As this Railway has continuously worked at a loss, the Government have had to make an annual payment, averaging about Rs. 2,10,000, to make good the guaranteed interest to the Debenture holders. The question of providing a Sinking Fund for liquidating the liability has not yet been settled. The real difficulty is that the Finances have been *barely* balanced; the surplus of Receipts over Disbursements will, *as matters now stand*, be ordinarily so small, that it will be difficult to provide for an adequate annual payment to the credit of the Sinking Fund.

Main Heads of Revenue.

4. The administration of the Main Heads of Revenue during the year was, on the whole, satisfactory. The 'Land Revenue Demand' (Net) amounted to Rs. 36,00,975 under 'Current', and Rs 1,58,136 under 'Arrears,' making up a total of Rs. 37,59,111. The Revenue Settlement of the State has been finished. The 'Collections' amounted to Rs. 35,88,132, and a sum of Rs. 14,206 was written off as irrecoverable. The 'Balance' pending at the end of the year was Rs. 1,56,773. The number of sales was small. In only 147 cases were properties sold, the amount involved being only Rs. 2,524. The Maintenance of Land Records continued to engage attention. The work has made considerable progress in the Padmanabhapuram Division. It has also been well started in the Trivandrum and

Quilon Divisions. The Cardamom Department ceased to exist as a separate Department, and it has been merged in the Land Revenue Department, its establishment having been reorganised for the purpose. Under 'Forest', the weak points were the slow progress of the Settlement work, the absence of up-to-date Working Plans for most of the forests, and the increasing stocks of timber in the depots; the satisfactory feature was the increased efficiency of fire-protection, an area of less than 12 square miles being burnt in 1085, whereas the area damaged in 1084 was so large as 191 square miles. In the administration of the 'Salt Revenue,' the policy of the Government has been to encourage the manufacture of home salt and also to reduce the volume of departmental action in the matter of the purchase and sale of Bombay salt. The consumption of home salt rose by over 37,000 maunds during the year, while that of Bombay salt fell by over 6,000 maunds. In the result, the total consumption rose by about 30,000 maunds. The average consumption of salt per head of the population reached the high figure of 25·7 lbs. Over two lakhs of maunds of Bombay salt were imported and sold by private agency, the merchants paying to the Government the duty of 1 Re. per maund. The 'Abkari Revenue' rose by about Rs. 70,000 mainly on account of the increase in the area under the 'Excise' system. The policy of reducing the number of liquor shops was persisted in. The total number of 'Country Liquor' shops fell by 1,434, and the number of 'Foreign Liquor' licenses also fell, from 99 to 92. Considerable unsettlement was caused to the 'Tobacco Revenue' by the sudden enhancement of the duty on Jaffna tobacco—from Rs. 90 to Rs. 900 per candy—which His Highness' Government (following the British Government) had to make on the 14th Kumbhom 1085, the enhanced rate continuing up to the 29th Karkadagom following. The 'Tobacco Revnnue' fell by over Rs. 20,000, and, if the normal increase which would otherwise have accrued is also considered, the loss must have been more. The 'Customs Revenue' fell by nearly a lakh of rupees, the greater portion of the decrease being under 'Export Duty,' due to the yield of the cocoanut tree being less in the year. The 'Stamp Revenue' increased by about Rs. 1,40,000.

Legislation.

5. Four ordinary meetings of the Legislative Council were held during the year. Nine Regulations were passed, of which eight were for amending existing Regulations. The other one was

to regulate Weights and Measures. The issue of Rules under this Regulation is now under the consideration of the Government.

6. Mr. Kuruvila's seat on the Legislative Council fell vacant some time ago, owing to the efflux of time. The Members of the Assembly coming from the Kottayam Division are requested to meet, under the presidency of the Chief Secretary to the Government, and nominate a person for this vacancy, for the consideration of His Highness the Maha Raja.

7. While on the subject of 'Legislation', I would invite the attention of the Samantha and Nair Members of the Assembly to the Proceedings of His Highness' Government, No 6472, dated 23rd December 1910, passing orders on the Report of what is known as the Marumakkathayam Committee, and the Draft Bill appended to the Government order. This Committee was appointed in February 1908, in pursuance of a request made by several Samanthas and Nairs in the Fourth Session, asking for legislation on certain lines in regard to their personal law. The Committee submitted their Report in August 1908. The Report was issued to the public in the October following. His Highness' Government then allowed the matter to lie over for a time, so as to give to the people belonging to the communities affected an opportunity of expressing their opinions before the Government passed orders. As a wish has now been generally expressed that the opinions of the Samantha and Nair Members of this Assembly should be taken on the provisions of the Draft Bill, His Highness has been pleased to command that this shall be done and that the opinions expressed shall be submitted to to him for consideration.

Administration of Justice.

8. The main feature about the administration of Justice was the large increase in the volume of Civil litigation. The number of *fresh* original suits rose from 47,800 to 51,312 and that of appeals from 2, 916 to 3,365. The result of the increase of litigation, coming on the top of a substantial volume of congestion already existing in several of the Courts, was that a new District Court and several new Munsiffs' Courts had to be established, and a redistribution had also to be made of the jurisdiction of the existing Courts. These changes all came into operation on the 1st Edavom 1085, so that we have not yet had one year to watch their effect.

Agriculture.

9. The Agricultural Department has continued to do good work. I would specially mention here the progress made by the Department in combating the Cocoanut Palm Disease. The area affected is over 50,000 acres, scattered over 11 taluks The three most infected centres are Kayancolam, Alleppey and Minachil. His Highness' Government sanctioned a scheme for Kayancolam and the neighbouring villages, and operations have also been since extended to Alleppey. The main features of the scheme are detailed in the Report; and as they are well known to you, I shall not describe them here; but I would content myself with saying that no *real* progress in this direction could be achieved unless the holders of the affected gardens co-operate *effectively* with the officers of the Agricultural Department; and I take this opportunity to press on such of the Members of the Assembly, as have come from the affected areas, the need for giving that co-operation.

Public Works.

10. The outlay on 'Public Works' rose substantially during the year. It amounted to Rs. 28,15,949, against Rs. 23,79,300 in the previous year. Of the total outlay, the Chief Engineer's Department accounted for Rs. 24,98,890, and the Maramat Department for Rs. 3,17,059. The large increase in the expenditure by the Chief Engineer was almost wholly on 'Original Works', due to the number of new works under construction, notably the Alleppey Pier, which alone consumed about Rs. 3 lakhs, also to the outright repairs of a large nmber of existing communications and buildings. Substantial progress was made during the year, by the Chief Engineer, in finishing several old works. The 'Kodayar Project' continued to make steady progress; the capital outlay on the Project was Rs. 4,14,754, the aggregate outlay up to the end of the year being Rs. 58,56,911. The 'Thovala Channel Works' are nearing completion and the 'Erattakara Channel Works' are being pushed on.

11. When addressing the Fifth Session of the Assembly, I mentioned that the Government were aware that the state of communications in North Travancore compared unfavourably with that in the South and that active steps would be taken to redress the balance. The Kottayam Members were then asked to meet, under the presidency of the Chief Engineer, and to frame, in consultation with

him, a programme of works. A note, giving information as to the further action taken, in pursuance of that programme, will be now circulated to the Members from North Travancore.

Railway.

12. I have elsewhere referred to the Railway from Shencotta to Quilon. His Highness' Goverment sanctioned, towards the close of the year, the survey of a line from Quilon to Trivandrum. The survey has been finished. The plans and estimates are awaited from the South Indian Railway Company. The cost of the survey is Rs. 38,000.

Anchal.

13. The Anchal Department continued to work satisfactorily. The number of Anchal officers rose from 181 to 192. A new line was opened from Kumili, *via* the Cardamom Hills, Deviculam and Munnar, to the North Eastern frontier at Chinnar. The total length of the Mail line rose in consequence, from 1,200 to 1,300 miles The total number of covers carried by the Anchal rose from 77,83,125 to 86,25,758. The Hundi business and the V. P. business done in the Anchal offices also increased. The system of Revenue Hundies for remitting the Sirkar tax to the Proverthy Cutcherries was introduced as a tentative measure, and it is reported that the public are availing themselves freely of it.

Public Health.

14. Public health was on the whole satisfactory, except for the circumstance that smallpox prevailed in a virulent form in several portions of the State during the year. Though the work of the Vaccination Department showed substantial progress during the year—the total number of vaccinations rising from 1,33,630 to 1,58,834—it is a matter for regret that the number of deaths from smallpox rose from 1,414 to 5,004. His Highness' Goverment feel that, in the matter of vaccination, a great deal can be done if non-official gentlemen, such as those who come as Members to this Assembly, would interest themselves in removing the unfortunate prejudice against it which now prevails in most places in the State, especially in Middle and North Travancore. Vaccination has now

been made compulsory in the town of Nagercoil, and the Government hope in due course to make it compulsory in other towns also. But in a matter like this, coercion cannot go far, and I would beg of the Members of the Assembly to interest themselves actively in this matter and to co-operate with the Vaccination Department.

Town Improvement Committees.

15. The Town Improvement Committees on the whole did well during the year. They are slowly learning the art of raising local taxation for local purposes. A sum of Rs. 18,137 was raised in the way, which, added to the opening balance of Rs. 8,902 and the Government grant of Rs. 46,644, made a total of Rs. 73,683. The Committees spent Rs. 55,842 and the balance to their credit at the end of the year was Rs. 17,841. Rules have been drafted for throwing open a certain number of the non-official seats on the Committees to election by the rate-payers. His Highness' Government hope to issue the Rules soon.

Medical Relief.

16. The Medical Department continued to do good work. 21 hospitals and 23 dispensaries were maintained during the year, inclusive of the new dispensary at Oodumbanshola, and exclusive of the Lunatic and Leper Asylums and in addition, 13 Medical institutions received grants-in-aid. Since the close of the year, five new dispensaries have been opned, *viz.*, at Ettumanur, Kothamangalom, Adoor, Changennoor and Kayancolam. A new hospital has been sanctioned for Kumili, but it has not yet been opened. The Government maintained during the year 69 Vaidyasalas. Increased grants were given to some of the Vaidyans and a redistribution of the Vaidyasalas was also effected.

Education.

17. Education received considerable attention at the hands of the Government during the year. The main features in the administration of the Education Department were the introduction of the Education Code, the abolition of fees in the Lower Grade Elementary Schools maintained by the Department, the institution of the School Leaving Certificate Scheme, both for the Secondary and Elementary Courses, the Revision of the Courses of Instruction for both classes of schools, the issue of an Inspection Code, the sanction accorded to the organisation of a Teachers' College at Trivandrum, and the arrangements made for the publication of a new and improved

set of Malayalam Readers for use in schools. There was a substantial increase in the *volume* of education. The total number of schools rose from 3,448 to 3,706, and their strength from 2,06,017 to 2,17,674. The increase—especially in the strength—was mainly in the Sirkar Schools, due to the opening of several new schools, both for boys and girls. The percentage of scholars in the Sirkar Schools rose from 28 to 31, the percentages in the Private Aided and the Private Unaided Schools being 38 and 31 respectively. The expenditure on Education amounted to Rs. 7,60,364. 9 % of the expenditure was on Direction and Inspection, 11 % on Collegiate Education, 18 % on Secondary Education, 51 % on Elementary Education, and 11 % on Special Education and Miscellaneous. The percentage of expenditure on Elementary (or Vernacular) Education rose from 47 to 51.

18. His Highness' Government are aware that apprehension is being felt in some quarters in regard to the future of Education and a great deal of criticism has also appeared on the subject; but so far, the criticisms have not been particularly illuminating. The Government have been following the criticisms with care; and I would here deal with two matters in regard to which some explanation by me may be of use. Firstly, there seems to be an impression that the policy of the Education Code is directed against Aided Education generally, and that, if the Code is continued as it now stands, most Aided Schools will cease to exist. Secondly there seems to be an impression that Vernacular Education has suffered in consequence of the reorganisation introduced by the Code. In regard to the question of Aided Education, it is not quite clear what provision in the Code is considered as being particularly aimed against the Aided Schools. It is true that, in several directions, the Code aims at improving the character of Education *generally*, but the increased stringency is intended soley in the interests of Education, and the Government are sanguine that it will be found, after a time, that the Aided Schools have benefited materially, from the pressure put upon them to work up to a higher level, and also from the protection afforded to them against the springing-up of adventure schools, which have, in the past, while not possessing any permanency themselves, succeeded in damaging existing schools. In regard to Vernacular Education, the impression that it has suffered may be due to two causes, namely, the reduction of the number of classes in the Vernacular Schools, otherwise called Elementary Schools, from eight to seven, and the abolition

of the Vernacular Higher Examination. Before the introduction of the Code the Vernacular Schools were of three Grades *viz*, Primary, Middle and High. The Primary Schools taught up to Class IV; the Middle Schools up to Class VI; and the High Schools up to Class VIII. According to the present classification, these schools are divided into two Grades, Lower and Higher. The Lower Grade Schools teach up to Class IV and the Higher Grade Schools teach up to Class VII. It had been found, from experience, that the 8 years' course was too long in many cases and the Government therefore reduced it to a 7 years' course. This was all the change that was made. The attendance in Class VIII of the old schools was only nominal, *e. g.*, there were at the close of 1084, only 146 pupils studying in Class VIII, out of a total of 1,86,523 pupils in all the Vernacular Schools. The large majority of the pupils used to leave off at what was then known as the Middle School stage, i. e., after completing 6 years. The Government not only considered that the period of eight years' course in the Vernacular Schools was somewhat too long, but they also considered that the education given in that period could without difficulty be imparted in seven years. Hence it was that Class VIII was abolished, and the new curriculam was introduced, extending over seven years, and including practically all the instruction which had previously been spread over eight years. The Government also laid down that the seven years' course in the Vernacular Schools should be the *minimum* for the School Leaving Certificate. The result of these measures, as gauged from the past one year's working, has been that a very large number of pupils, who would otherwise have left school after having passed through Class VI, have continued their education in Class VII. At the close of 1084, there were only 218 pupils studying in the classes above Class VI, while at the close of 1085 there were so many as 2,141 such pupils. The introduction of the Education Code has so far tended to *increase* the number of pupils studying in the Vernacular Schools beyond the sixth year. There has also been an appreciable increase in the *total* numbers seeking Vernacular Education. The strength of the Elementary Schools rose from 1,86,423 in 1084 to 2,03,228 in 1085 In regard to the abolition of the Vernacular Higher Examination, it was part of a general scheme, which the Government thought necessary to introduce, in view to ensure that deserving pupils should obtain qualifying certificates, based on a sound basis. The scheme of School Leaving Certificates replaces not only the Vernacular Higher

Examination but also the Matriculation Examination. I trust that these remarks of mine will not be taken by the Members, who have notified their intention to speak about the Education system, as indicating that I deprecate the full and free expression by them of their opinions in regard to this important matter. On the other hand, I look forward to what they would say with considerable interest. I am sanguine that they would make their representations in that spirit of moderation, which contributes so materially to the satisfactory settlement of difficult questions, and above all, I hope that they would distinguish between the principles of the Code and individual cases of real or supposed hardship in its operation.

Religious and Charitable Institutions.

19. At the previous Sessions of the Assembly, several members have referred to the administration of the Religious and Charitable Institutions of the State. The desire was expressed that the changes contemplated in regard to the 'Devaswoms' should not act prejudicially to those institutions. Several Members also prayed that the expenditure on 'Charities' should be curtailed and kept within proper control. I would now invite the attention of the Members to Chapter VIII of the report, from which they will see that final orders have not yet been passed by His Highness' Government on the proposals made by Mr. Ramachandra Rao in regard to the 'Devaswoms'. The Members may rest assured that the Government would take steps not only to put the 'Devaswoms' on an efficient footing, but also to safeguard their future. The changes introduced in the administration of the 'Charities' have already resulted in reducing the expenditure on them substantially, the total exenditure having fallen from Rs. 6,44,928 to Rs. 4,95,375, and a still further reduction of the expenditure is anticipated during 1086.

Conclusion.

20. The year 1085 was the 25th year of His Highness the Maha Raja's Reign. Immediately after the close of the year, on the 3rd Chingam 1086, people of all classes and creeds celebrated with great rejoicing, all over the State, the happy completion of 25 years of the beneficient sway of a wise and singularly unselfish Ruler, whose one and only aim has throughout been to promote the well-being of his subjects.

The Dewan having resumed his seat, the Malayalam translation of the Address was read to the Assembly by the Government Head Translator. Copies of the Address, in English and Malayalam, were then distributed among the Members and others present. The Assembly adjourned at 1- 20 P. M., to meet again the next day at 11 A. M.

The consideration of all the subjects being over, *Mr. P. K. Kesava Pillai* (Member, Trivandrum Taluk) spoke as follows:—

Sir,

On behalf of the Members of this Assembly, I beg to request that you will be pleased to convey to His Highness, Our Most Gracious Maha Raja, the feelings of profound gratitude, deep veneration and genuine loyalty which we and the people of Travancore, whom we represent, feel towards His Highness. No proof is wanted of the hereditary love and devotion of the people of this country for their Sovereign. If any were needed, nothing would better illustrate the feelings of His Highnss' people than the unanimous and unbounded enthusiasm with which the Silver Jubilee of His Highness' Benficent Reign was celebrated by all classes of His Highness' subjects throughout the country. If His Highness' wishes had not been known to enjoin great moderation in the expenditure incurred in the celebration, His Highness' subjects would gladly and voluntarily have raised a magnificent and permanent memorial of His Highness' Illustrious Reign. We fervently pray that His Highness may be blessed with long life, unfailing health and all the happiness that the Almighty can bestow.

This is the fourth occasion on which this Assembly has had the privilege of your guidance and control. We feel that we should be wanting in duty if we did not give clear expression to the high admiration and deep gratitude of the country towards you, for the many measures of wide-reaching importance which you have inaugurated. The most gratifying feature of your administration has been that the Finances of the country have been placed on a sound and stable footing, for it has made possible the carrying into effect, now and in the future, of all reforms which essentially depend on money. The Revenue Settlement which had been dragging on for years has been brought to a close. Greater efficiency in the public service has been secured by increase of pay in many Departments. The cause of Education has received a strong and unprecedented impetus by the introduction of free primary education and by the admission into the public schools of all classes of His Highness the Maha Raja's, subjects, and we trust that the educational policy of the Government will be so administered as to ensure to Travancore the continuance of that pre-eminence in matters educational which is admittedly hers. The extension of Railway communication to the capital and the saving of public time and the promotion of public convenience

which will be produced thereby will, we hope, also be associated with your name.

We are deeply touched by the sympathy with which you have tackled the difficult social questions, affecting large and important communities in the State, which had been engaging the attention and baffling the resource of generations, and we hope that the progress made in those measures will be crowned with the success which all interested in the welfare of the communities are devoutly wishing for.

In this Assembly, your patience and courtesy have been, as usual, infinite and uniform. Your solicitude for our convenience and the arrangements made for our improvement and instruction during our stay at Trivandrum have also impressed us as further proof of your consideration and sympathy for this Assembly. We trust that, with all our faults in the discharge of our responsible duties, of which none are more conscious than ourselves, the proceedings of this Assembly have been such as to detract nothing from those of its predecessors, about which you have been so good as to express kind and appreciative sentiments, and we live in the hope that we have helped the coming of the day when the Government may be pleased to entrust to this Institution duties of yet a more responsible and collective character.

The Dewan gave the following reply: —

GENTLEMEN,

I shall, with pleasure, submit your message of devotion and loyalty to His Highness the Maha Raja.

2. So far as I am personally concerned, I feel sincerely thankful to you for what you have said about me and my work. The improvement in the Finances of the country, to which you justly attach great importance, is due, as already pointed out by me, to a series of administrative measures, for only some of which I can claim any credit. But after all, the credit or share of credit due to individual Dewans is a minor matter. It is certainly a gratifying feature that the Finances have been placed on a satisfactory footing; for, as pointed out by you, most reforms need money for carrying them out.

3. In regard to the constitution of the Assembly, I should like to say a few words about the wish expressed by some of the Members

for an increase in the number. The *maximum* number under the old Rules was 100; the *minimum* under the new Rules is 70. Under the new Rules, not only do the several taluks and Town Improvement Committees continue to be represented, but special provision has been made for the representation, by election, of the Planting interest, the Mercantile and trading Classes and Jenmies. There is no reason why an Assembly of 70, as now, should not do quite as useful work as the somewhat larger bodies of previous years. I trust that what you have seen of the work of the present Assembly has shown you that the reduction in the number has not in any way impaired its usefulness. At the same time, there is no question of principle involved in this matter, and *if* there is any general wish for a larger body, the Government would raise no objection to grant it.

4. Then again, in regard to the wish expressed that the Assembly should be made more representative in character, it is one with which the Government completely sympathise. I fear that the present system of election by taluks and towns has not adequately safeguarded the interests of certain minorities. For example, in the present Assembly, out of a total of 70 Members, the Native Christians are only 11 in number—three of them being nominated men—though this community comprises a population of about 7 lacs out of a total of about 30 lacs. Again, the Ezhavas, who comprise about 5 lacs, are represented by only a single Member, and that a nominated one. As for the Pulayas and other backward classes, they have of course no chance—as matters now stand—of getting into the Assembly by election. The whole question of the constitution of the Assembly is one of some difficulty. On the whole, the Government would prefer to try the present system for some time longer, nomination being resorted to, probably somewhat more freely than hitherto, to redress, as far as possible, the inequalities referred to.

5. There are a few matters in the new Rules to which exception has been taken, which are all of minor importance, for example, the condition that a Graduate, to be eligible to vote, should have a certain standing. This proviso was put in, because it was felt that, when a man was given a vote not on account of any property qualification, but solely because of his possessing a certain volume of education, it would be an advantage to ensure that he should also have had a certain volume of worldly experience. Should however there be a general feeling that Graduates should become eligible to vote, without any reference to their standing, His Highness' Government would raise

no objection to allowing it. Again, in regard to the time-limit imposed on every speaker, I trust that the experience of this Assembly has shown that this undoubtedly necessary rule is not likely to be worked in an arbitrary way. If the period is extended, even then, a great deal will have to depend on the discretion of the President for the time being. And, as for the time of the year fixed for the meeting of the Assembly, it has been so fixed as to enable the Government to place in the hands of the Members the Administration Report of the year preceding.

6. There are two matters in the new Rules which His Highness' Government consider to be vital, and I feel bound to say so at once. One is the power taken by the Government to remove from the *voters'* list an individual when, in their opinion, the public interests require such removal. The second is the power taken by the Government to veto the discussion of any subject when, in their opinion, the public interests require that the discussion should not be allowed. In regard to the first point, I would draw your attention to the circumstance that the Government have not taken the power to cancel any *election* except on grounds of ineligibility, irregularity or undue influence. But power has been taken to eliminate the undesirable element, if any, at the very earliest stage, namely, when the voters' list is passed. Again, in regard to the subjects, *some* of the prohibited subjects have been enumerated, but it was felt that a *complete* enumeration could not be safely made. These two restrictions are intended to be used in exceptional cases and under exceptional circumstances. They are necessary safeguards. If the restrictions are necessary, it follows that the discretion to use the power has to be left to the Government.

7. But, gentlemen, after all, the usefulness of the Assembly will depend not so much on this or that rule, but on the spirit in which it is worked. The Assembly will prosper as long as it is worked in the proper spirit by the Members who come to it and by the Dewan who presides over it. The most perfect of rules would not carry you far unless the proper spirit were there. The Members will have to recognise that they come for the purpose of co-operating with and helping the Government, by putting before the latter the views of the people affected by the measures of the Government. And so far as the Government are concerned, it is of course our duty to give you all reasonable facilities for making your representations; it is our

duty to give the most careful consideration to those representations when made; and lastly, where action could be taken, with safety and advantage to the public, on any of the lines indicated by you, the Government will proceed to action. But the *final decision* in every case has necessarily to rest with the Government, and the Members of the Assembly should always remember that the standpoint of a Government, responsible for the administration, cannot always be fully and freely explained to the public. I gladly recognise that the Members of the Assembly have, till now, generally realised and acted in the true spirit. I have on previous occasions borne testimony to their good sense and moderation, and so far as the Government are concerned, I would point out to you that it has been our continuous policy, for now several years, to deal fully with the representations made at the Assembly and to grant relief where that could with safety be done. You are good enough to refer in flattering terms to the way in which I have been presiding at this Assembly and conducting its work. I on my part trust that the reputation, which the Assembly now has, will always be maintained. I have no hesitation in saying that the proceedings of this—the Seventh—Assembly have been such as to maintain the level to which the previous ones had attained. Not only so, but I am glad to note that the Members generally appear to have taken even more pains over their subjects than in previous years.

8. I shall now say a few words in regard to some of the questions of general importance discussed at this Assembly. In replying to the representations made about framing a scheme for village organisations, so as to train people to learn how to administer their affairs in rural areas, I have already said that the matter will be taken up in due course. And you have also been told that rules are under issue, throwing open a certain number of seats in the Town Improvement Committees to election. These measures should gradually accustom you to the art of administering your local affairs.

9. In regard to the important subject of Education, about which there has been so much said, I have no hesitation in saying that His Highness' Government and the Director of Public Instruction have benefited by knowing your point of view. An important Government Department may not always be able to see, eye to eye, with the people affected by the line of administration it is following, but it should be a distinct advantage to the head of the Department to

know what exactly are the matters about which there is such loud complaint. So far as I am able to see, you do not object so much to the Education Code as to the way in which it is being worked, or you fear it may be worked. It will be impossible for me to make a full pronouncement, on an occasion like this, in regard to such an important matter, but I would ask you to accept my assurance that the question would be carefully and closely looked into by me, and, if I find any errors of principle or of procedure, action would be taken to correct them.

10. You refer with special satisfaction to the way in which His Highness' Government have been dealing with certain social questions affecting large communities. I am glad to note that, in regard to the Marumakkathayam Bill, there is a general consensus of opinion in favour of it, though several of the details have come in for criticism. The opinions expressed by the Samantha and Nair Members in regard to this Bill will in due course receive careful consideration in the Legislative Council. As for the Christians, I am glad that the request made by them in this and previous Assemblies, asking for the appointment of a Committee to enquire into the Customary Law regulating Succession and Inheritance among them, has been granted. His Highness' Government hope to issue orders soon in regard to this Committee, whose labours, I trust, will benefit the community. In matters like these, of social legislation, it is a distinct advantage to you that you are in a Native State; for while the Government of a British Province cannot, for obvious reasons, go far to correct social evils, the Ruler of a Native State need have no hesitation to proceed as far as he thinks that the interests of his people require. The Maha Raja is not only the head of the Government but also the Head of Society among his own people. Much of your progress hitherto has been due to your steadfast devotion to His Highness and to your implicit belief and confidence in him; and the best advice that I can give you, and through you to the people of Travancore, as your sincere friend and well-wisher, is that you should maintain intact and unimpaired this precious heritage.

Note—The mean yearly fall of rain from 27 years' observations (1838–64) was 68·36 inches, showing a decrease of 3·65 inches in the whole period of 43 years. The 16 years' observations from 1865–80 give however only an average yearly fall of 61·52 inches, exhibiting a still clearer decrease in the quantity of rain. The average number of rainy days has remained yet pretty equal; 137·8 for the 27 years from 1838, 137·5 for the 16 years from 1865, and 138·0 for the whole period of 43 years (1838–80). But as the observations extend only over a short period and are confined to but one place, it would be premature to predict any continued decrease.

* This result is obtained from 43 years' observations (1838—80).

Provided that, if the matter before the Council be an amendment of a Bill, the Member in charge of the Bill, shall be entitled to speak next after the mover and seconder of the amendment.

17. A Member who has spoken upon a motion may speak again upon any amendment of that motion. A Member may also speak again in order to explain what he has previously said if it has been misunderstood.

18. When, for the purpose of explanation or for any other reason, a Member has occasion to ask of another Member a question relative to the business before the Council, he shall ask the question through the President.

19. Every matter which comes before the Council for decision shall be decided in accordance with the majority of votes after (1) motion has been made and seconded and (2) the question has been put by the President.

20. No discussion whatever shall take place after the question has been put by the President.

21. Any Member may ask for any papers or information connected with the business before the Council and the President shall determine whether such papers or information can be furnished.

If the President be not the Dewan, and the papers or information called for belong to any Department of the State other than the Legislative Department, the Dewan may veto the decision of the President.

V. Motions generally.

22. Members who wish to make any motion at any meeting must give notice of their intention at the next preceding meeting or must send such notice in writing to the Secretary so as to reach him at least six clear days before the day fixed for the meeting at which they intend to make the motion. A motion of which due notice has been given may, in the absence and at the request of the member by whom notice was given, be made by any other Member; but, if not so made, or if a Member announces his intention of withdrawing a motion standing in his name, the motion may be made by any other Member and if not so made, shall not be put unless the Council otherwise orders.

26. If amendments of any motion are moved, the President when taking the sense of the Council thereon, shall in his discretion put first to the vote either the original motion or any of the proposed amendments thereof.

27. A purely verbal amendment of a motion may be moved at any time during the discussion upon the motion and without previous notice, but no amendment which is substantially the negative of a motion shall be taken into consideration by the Council.

28. A motion shall not be taken into consideration by the Council if it substantially raises a question already disposed of at the meeting or is inconsistant with any resolution already passed thereat.

29. If any motion, as made, involves several points, the President may, at his discretion, divide it, so that each point may be determined separately.

VI. Introduction of Bills.

30. Any member may move at a meeting of a Council for leave to introduce a Bill in accordance with section 12 of the Legislative Council Regulation, 1073; provided that at least six clear days' previous notice of the title and subject of the Bill has been given to the Secretary.

31. If the motion for leave to introduce a Bill be carried, the mover shall send the Bill, together with a full statement of the objects of and reasons for the proposed measure and any connected papers, to the Secretary, who will forthwith cause the Bill, the Statement of Objects and Reasons and the connected papers to be printed and communicated to each of the Members, and will also cause the Bill and the Statement of Objects and Reasons to be published in the Government Gazette in English and in Malayalam.

Provided that the publication may be deferred under the orders of the Dewan until the next meeting of the Council when the publication of such Bill shall be considered.

32. The Dewan may, at his discretion, direct the Secretary to publish any Bill together with a statement of the objects of and reasons for it, in the Government Gazette, in English and in Malayalam although leave to introduce the Bill has not been applied for under Rule 30; and the Secretary shall publish it accordingly and shall send a copy of the Bill and of the statement of the objects and reasons to each of the Members. When a Bill has been published under this Rule, it shall not be necessary to move under Rule 30 for leave to introduce it.

33. At any time after leave to introduce a Bill has been granted under Rule 31 or after publication has been ordered under Rule 32, the Member in charge of the Bill may introdnce it after giving six clear days' notice to the Secretary; provided that no Bill shall be introduced until fifteen clear days from the date of its publication.

When introducing a Bill, the Member in charge of it shall move that the Bill be read in Council. The principle of the Bill and its general provisions may then be discussed, and, if the motion be carried, the Council shall then consider the question of referring the Bill to a

Select Committee and, if the question be decided in the affirmative, the Council shall appoint the Committee and may further direct that its report shall be submitted within a special period.

34. At any time during the progress of a Bill the Member in charge of it may move for permission to withdraw it, and, if such permission is granted, the Bill shall be withdrawn accordingly. The Member in charge of a Bill which has been published under Rule 32, but which has not been introduced and read in Council, may withdraw the same without further formality than a mere announcement of the withdrawal to the Council.

VII. Select Committees.

35. Select Committees may be appointed by the Council for any purpose connected with the business of the Council and may sit and submit their reports although the Council is adjourned. The Member in charge of a Bill shall always be a member of the Select Committee appointed to consider the Bill.

36. When a Bill has been referred to a Select Committee for consideration, it shall be the duty of the Committee to discuss each clause of the Bill and to recommend to the Council such amendments as seem to it to be advisable.

42. The Committee may elect their own Chairman who shall have power to report to the Dewan the name of any Member of the Select Committee who neglects or is unable to attend its sittings and the Dewan may thereupon appoint, out of the Members of the Council, an additional Member to the Select Committee.

When a Bill has been introduced and read in Council under rule 33 and the Council has decided that it is not necessary to refer it for consideration to a Select Committee, the Council shall not proceed to take the Bill into consideration until the expiration of fifteen clear days from the date on which the Bill was read under Rule 33.

In this case it shall not be necessary to make, on the day on which the Bill comes on for consideration, a formal motion that the Bill be taken into consideration.

46. When a Bill has been referred to a Select Committee under rule 33 it shall not be taken into consideration by the Council unless copies of the Report of the Select Committee and (if the Bill has been amended) of the Bill as amended shall have been sent to each of the Members of the Council, at least fifteen clear days beforehand and, in cases in which the Select Committee has not dispensed with the publication referred to in Rule 40, until the expiration of twenty-one clear days from the date of such pulication. Subject to these conditions, the Member in charge of a Bill, when presenting the Report of the Select Committee to the Council, may move either that the Bill and report be taken into consideration at once or that the consideration of them be postponed to a subsequent meeting.

48. Proposed amendments of Bills shall not be moved, until the Bill is actually taken into consideration and, when moved, they shall be considered in the order of the sections to which they relate.

Proposed amendments of Bills shall be governed by Rules 24, 25, 26, 28 and 29, relating to motions.

49. The President may declare that a proposed amendment of a Bill shall not be discussed or put in to the vote on the ground that it is irrelevant or incomplete or that an amendment identical in substance with it has been previously disposed of by the Council in considering the same Bill.

50. When the amendments proposed by the Select Committee (if the Bill has been referred to a Select Committee), and such other amendments as may be proposed by any of the Members before the Council, have been considered by the Council, the Member in charge of the Bill, or in his absence, any other Member, may move that the Bill as amended be taken up and passed at a subsequent meeting.

At such meeting the Council shall consider the amendment, if any moved on behalf of Government, and pass the Bill. No amendments other than those connected with the amendments moved on behalf of Government shall, without the special permission of the Dewan, be brought up for consideration at this stage.

With reference to para 2 of the Royal Proclamation dated $\frac{\text{2nd Mithunom 1056}}{\text{14th June 1881}}$ regarding mining rights in Travancore, it is hereby notified, under sanction of His Highness the Maha Rajah, that in view to afford facilities for finders of plumbago in private lands to dispose of the article and for placing the mineral on the market, the following rules are passed as a tentative measure for a period of five years with effect from the $\frac{\text{1st Karkadagom 1081.}}{\text{16th July 1906.}}$

1. Persons who find plumbago on their own property shall deliver the same to the Morgan, Crucible Co., who are authorised for the period of five years above mentioned to collect the mineral on behalf of the Sirkar.

2. The Morgan, Crucible Co., are permitted to export all quantities of plumbago collected by them under these rules on payment to the Sirkar of a royalty of $2\frac{1}{2}$ per cent on the sale value of the dressed mineral at the pit's mouth or on the surface and export duty of 5 per cent of tariff value and such reasonable remuneration to the finders as may be agreed upon between them and the said Morgan, Crucible Co.

3. In the event of the Sirkar granting to any other firm or individual a concession similar to what is given to the Morgan, Crucible Co. under these rules, it is open to the Sirkar to specify the local area within which each of them should exercise the right of collecting and exporting the mineral.

4. The Morgan, Crucible Co. shall keep accurate accounts of the plumbago collected and exported by them under these rules, showing the name and residence of the finders, the localities from which the plumbago is taken, the rates of remuneration paid by them to the finders and the prime values of the mineral and such other details as may be prescribed by Government from time to time and shall submit to Government every month a statement containing the above particulars.

5. The accounts kept under the foregoing rules shall be open to inspection by the Dewan or such other officer as may be deputed by him for the purpose.

6. Nothing in these rules shall be construed as conferring any right upon any owner of private land to carry on regular mining operations or to deal in or dispose of the plumbago which he may find, except in the manner provided in these rules.

7. The Morgan, Crucible Co. shall return to finders all quantities of plumbago that might be rejected by them as being unfit for export and it shall be open to the finders to apply to the Sirkar for permission to utilise or dispose of such quantities on their own account. The permission will be granted on such conditions as may be deemed necessary in such cases.

8. On failure to comply with any of the conditions herein specified, the concession granted by these rules shall be revocable at the discretion of Government. (7th July, 1906.)

Proceedings of the Government of His Highness the Maha Raja of Travancore, No. 2680, dated the 18th September 1908.

Read again the Revised State Life Insurance Rules, passed with the sanction of His Highness the Maha Rajah under date the 16th August 1906.

ORDER THEREON.

The present rules enforce insurance on all public servants permanently entertained in the service on or after 1st Thye 1073. Several complaints have been received regarding the oppresssive way in which the scheme is said to have been working, especially in the case of the poorer public servants. The scheme, *as a compulsory one*, has, in the opinion of Government, been tried long enough and it has been all through unpopular. His Highness' Government consider that it may be well left to each man to decide in what form he should provide for those dear to him, and they resolve to make insurance *optional* hereafter in the case of every public servant, irrespective of the date of his entertainment in the service.

2. There is no provision in the present rules for withdrawal from insurance if the person insured wishes to do so. Some provision for the purpose appears necessary and Government direct that a provision be inserted in the rules, permitting withdrawal *at any time at the option of the person insured*, the latter being paid back the sum total of all the premia paid by him up to the date of his withdrawal.

3. Further, the rules now in force do not insist upon medical examination for further insurance. It appears to Government desirable to prescribe such examination for further insurance also, as a person in perfectly good health when first insuring, may fall ill subsequently and his health may be so far impaired as to render him ineligible for further insurance. His Highness' Government therefore direct that, in the cases of all future proposals for further insurance, the proposers should undergo medical examination, before the proposals are taken up for consideration.

4. The State Life Insurance Rules, as now further revised, are appended to this order. They will come into force at once.

STATE LIFE INSURANCE.

Revised State Life Insurance Rules.

1. In these rules:—

(*a*) "Proposer" means the person whose life is proposed to be insured.

(*b*) "Insured" means the person who has insured his life under these Rules.

(*c*) "Policy" means the written document containing the contract for the payment under these rules of an endowment bonus in consideration of the premium paid by the Insured.

(*d*) "Pay" means the remuneration paid to an officer in respect of any permanent office held by him in the service of Government, in respect of which office he may become entitled under any rules, which are now or which may hereafter be in force, to a pension, but shall not include any fees accruing to any officer in respect of such office.

(*e*) "Premium" means the periodical payment for any policy.

2. All public servants holding permanent appointments *may* insure their lives under these rules,

Provided that the age of the officer insuring does not exceed 45 years and his salary is not below Rs. 10.

3. Ten per cent of the pay of the Insured shall be recovered every month as premium and credited to Government till the insured shall complete 55 years or, in the event of his dying earlier, till his death, in consideration of which a bonus (according to the table appended to these rules) shall be payable from the Government Treasury to the Insured or his representative or assignee as the case may be on his completing the age of 55 years, or at his death, if earlier. Fractions of a rupee other than half-a-rupee shall be excluded in calculating the monthly premium.

4. The age of the Proposer shall be taken to be the age at his last birthday.

5. Whenever the pay of the Insured is permanently increased, a further insurance *may* be effected for such bonus as will cover the surplus premium available.

6. When an Insured ceases to be in the service of Government before completing the age of 55 years, he may elect either to continue to pay the premium due on his policy till it becomes mature, or withdraw from insurance. Provided, however, that dismissed officials, who have been ordered by Government to be included in the list of officers not eligible for re-entertainment in Government service, shall not have the option to continue to pay the premium.

7. † If an Insured wishes to withdraw *at any time* from insurance, he may surrender his policy and apply for the surrender value of the bonus assured thereby, which will be the sum total of all the premia paid by him up to the date of such withdrawal.

8. If an Insured be degraded for any cause, he may either continue to pay the full premium on his Policy or discontinue payment of the difference between such premium and that due on his reduced pay, the bonus payable being in the latter case such portion of the original bonus as is proportionate to the premium paid.

9. The business of the State Life Insurance Scheme shall be managed by the Chief Secretary to Government, or any other officer specially authorised in this behalf, assisted by one of the Assistants in the Secretariat. The account portion of the work shall be attended to in the Central Account and Audit Office.

10. The Chief Secretary to Government or other officer specially authorised in this behalf may, with the Dewan's sanction, frame such subsidiary rules for the transaction of business as may be found necessary.

All matters not provided for in these rules and all doubts about the construction or interpretation of the rules shall be placed before the Dewan by the Chief Secretary or other officer aforesaid, and the orders thereon of the Dewan shall be final.

11. All receipts and disbursements on account of the State Life Insurance shall be carried to a separate head of account, and funds belonging to this account shall at the end of each month be invested in such manner as Government may prescribe.

12. A public servant proposing to insure his life under these rules, shall submit his proposal in Form No. 1 written in his own hand whenever possible, and signed in the presence of his immediate superior who will, in his turn, sign the certificate to the effect that he has read and explained the form to the Proposer, whose signature was affixed in his presence, and that the entries made therein (especially those relating to the age, the date of birth, pay and the date of first permanent appointment in service on Rs. 10 or above of the Proposer) are correct and forward the same in a sealed cover to the head of the department concerned.

13. The Head of the department concerned will, after examining the Proposal, forward the same to the Medical Officer who may be appointed by Government in this behalf, requesting him to examine the Proposer and record his opinion regarding his age and health in the certificate appended to the Proposal.

---

† Vide also rules 7, 20, 21 and 22 modified by Notification No. G. 5176 dated 17th August 1910, appended.

Government may, however, in any case, dispense with the medical examination contemplated in the first para of this rule and accept a certificate of health produced by the Proposer from a competent Medical Officer.

14. It shall be the duty of the Medical Officer to examine the Proposer and record his remarks on the back of the Proposal and forward the same direct to the Durbar Physician in a sealed cover, after obtaining the signature of the Proposer to the declaration prescribed therein.

15. The Proposal and the Medical Report shall then be examined by the Durbar Physician and forwarded to the Chief Secretary or other officer specially authorised in this behalf, with his opinion, which shall be final. The Durbar Physician may, if he deems necessary, call a Medical Board to examine any Proposer before passing his final opinion. In all cases where the Medical Board is convened, the opinion of the majority shall be final. In cases of equality of votes, the Durbar Physician shall have a casting vote.

16. If the Proposer is declared to be fully eligible, the Chief Secretary or other officer aforesaid, shall issue a Policy in Form No. 3 and arrange to give intimation of the acceptance of the Proposal to the Proposer through his immediate superior. If a proposal is not fully eligible, the age of the Proposer shall be taken to be his age *plus* the years recommended by the Durbar Physician to be added on, and a policy in Form No. 3 A shall be issued for the amount of the bonus which the age so taken would entitle him to. The difference between the bonus thus entered in the policy and that payable if his age had been accepted without any addition, shall, however, be divided by the difference between his age and his 55th year, and the quotient shall be annually added to the bonus specified in the Policy until his death, if it happens before his 55th year, and paid along with the said bonus. If he lives to the age of 55, the amount of bonus payable shall be the same as that which would have been payable if his age had been accepted without any addition.

17. The Chief Secretary or other officer specially authorised in this behalf shall forward the policy to the Head of the department in which the Proposer may be employed, or to the Officer in charge of the Treasury from which his pay is disbursed, for delivery to him on payment of the first premium in cash or deduction from his pay. The date of payment of the first premium shall be the date of the policy, and shall be entered therein by the Officer realising the premium, before delivery.

18. When an Insured wishes to further insure his life, he shall submit a Proposal in Form No 2. The procedure prescribed in Rules 12 to 16 *supra* shall be applicable to this further insurance.

19. On an Insured completing the age of 55 years, the sum assured by his Policy less the amount (if any) on account of arrears of premia, will be paid to him or to his assignee, after the surrender of his policy and on the production of a certificate of identity ; but if he dies before completing the age of 55 years, the amount due will, on production of satisfactory evidence of death and of the claim to the bonus and on the surrender of the policy, be paid to his legal representative or assignee. If there be doubt or dispute as to the person entitled to receive the bonus, it shall be paid after production of satisfactory proof of the claimant's right.

20. † The premia shall be payable in advance and be recovered monthly by deduction from the pay of the Insured.

21. † When an Insured is absent from duty on leave with allowances, the premium shall be realised when such leave allowances are drawn. If he should obtain leave without allowances or be suspended from service, the past premium, if not otherwise recovered, shall be a debt on his policy carrying interest at 4 per cent per annum, and shall be recovered as arrears from his future pay, if any, in instalments not exceeding 10 per cent of such pay, in addition to the current premium.

---

† Vide also rules 7, 20, 21 and 22 modified by notification No. G. 5176 dated 17th August 1910, appended.

22. † When an Insured who has ceased to be in the service of Government has elected to continue to pay premium till his policy matures, he may be allowed by the Chief Secretary or other officer specially authorised in this behalf, to pay such premium in advance monthly, quarterly, half-yearly or yearly into any Government Treasury. Fifteen days' grace shall be allowed when the premium is payable monthly and a grace of one month when it is payed otherwise. If the Insured fails to pay the premium within the days of grace, he shall be deemed to have withdrawn under Rule 7 and he shall be paid back the surrender value of the bonus assured which will be the sum total of all the premia paid by him up to date.

23. Every insured shall be supplied with a Premium Receipt-book (Form No. 4) in which payment of each premium shall be acknowledged by the Officer realising the same.

"If an insured should lose his Premium Receipt-book, a duplicate thereof may be issued to him by the Chief Secretary or other officer specially authorised in this behalf, on his paying a fee of Re. one."

The above addition was made to Article 24 to the rules under Palace sanction on 20-2-09 and published in the Gazette dated 2-3-09.

24. If an Insured should lose his policy, a duplicate thereof shall be issued to him by the Chief Secretary or other officer specially authorised in this behalf on his paying a fee of one rupee.

25. False information furnished by an Insured or production by him of any false evidence in connection with the insurance of his life, shall render his policy null and void, and the premia paid by him shall be forfeited to Government.

26. Government reserve to themselves the right to add to, or modify or altogether cancel, these rules in regard to all *Future* applicants.

27. These rules do not apply in respect of appointments, service in which does not count towards pension under the Pension Rules.

28. These Revised Rules shall come into force at once.

† Vide also rules 7, 20, 21 and 22 modified by Notification No. G. 5176 dated 17th August 1910, appended.

LETTERS.

1. Letters weighing up to 20 tolas, whether paid or service, shall be sent by letter mail, and those exceeding that weight by the slower bhangy mail, but letters of an emergent character, though weighing above 20 tolas, may, nevertheless, be sent by letter mail, provided the charges are paid at letter rates in the case of private covers, and provided that words "emergent" and "by letter mail" are written on the cover in the case of official letters.

2. Heads of offices and departments are required to pay particular attention to the proper superscription of service letters &c, sent through the Sirkar Anchal. A specimen form of address is given in the margin.

Office of the Trivandrum Division Peishkar. On Sirkar Service only. To The Tahsildar A. B. Divisior Sheristadhar Quilon.

If the service covers from any office are not properly addressed and franked by the head of each Department or office or by a trustworthy subordinate specially authorised by him in writing for the purpose, they will be treated as private covers and charged at the prepaid rates.

3. The officer authorized as aforesaid to sign the cover must enter *in full* his official designation, in order that his individual responsibility may be enforced in cases of doubt or fraud.

4. Government officers are bound to receive all service letters &c., addressed to them, paying any charge which may be made by the Anchal office on account of any irregularity or incompleteness of the address or signature.

5. The postage thus charged by the Anchal Department will be paid by the official to whom such cover is addressed: the addressee will, in due course, apply to the official from whose office the cover was despatched for the postage paid by him forwarding the cover as a voucher for the amount. The officer to whom such application has been made will use his discretion in recovering the postage from the person or persons in fault.

6. Letters sent by Government officers in their official capacity which relate nevertheless to the private interests and concerns of the individuals addressed should be addressed according to the specimen form given in the margin under the full signature and official designation of the person by whom they are sent. Letters &c., so addressed shall be regarded by the Anchal office as private covers and charged on delivery with postage at prepaid rates instead of at double rates. Under this head come replies sent to communications of the kind named below:—

8. If the person to whom an express has been sent has left the station for another, it will be forwarded to him to the new station by the ordinary mail.

9. If the addressee be not found and if the Anchal Master be unable to find out his whereabouts, the letter shall be treated as unclaimed. It will be detained at the office of delivery for three weeks and then returned to the sender.

12. The above rules regarding expresses do not in any way affect the existing arrangements for the transmission of articles &c., by periodical expresses for the use of the Palace.

Registration of Letters.

The addressee's signature will be obtained in the receipt and the receipt recorded in the office of delivery. 14. Letters containing a currency note or any portion thereof, postage or other stamps, cheque, hundi, bank note, bill of exchange or the like must be sent registered. It is considered expedient, for the safety of currency notes in transit, that they should be sent in halves.

15. The sender of a registered letter is required to see that it is enclosed in a cover or envelope of a substantial kind fastened in a secure manner. Sealing wax with a distinct impression (other than that of the current coin) is recommended for fastening the cover instead of or in addition to any other means of fastening.

26. If the sender desires to obtain an acknowledgment from the addressee, he must prepay the acknowledgment postage of half a chuckram* independently of the parcel postage.

MISCELLANEOUS.

Letters &c., posted after that time will be stamped 'Too late' and detained for the following day's mail. The time of the closing of the mail will be notified by the Anchal Master at every station. Letters &c., that are to be despatched by mails during night, must be posted before 6 P. M. except under special orders to the contrary from the Anchal Superintendent.

34. Complaints against the Anchal office, certified as such under the full signature of the sender and addressed to the Anchal Superintendent are not chargeable with postage.

35. Since Anchal peons cannot deviate on any account from their regular course of delivery in their respective beats, persons residing far away from the Anchal office, if desirous of obtaining their letters &c., immediately on arrival of the mail, must send their own authorised messengers to the Anchal office to whom all covers except those for which receipts are required will be delivered.

36. It is forbidden to send by Anchal, explosive, dangerous or offensive substances or materials such as gunpowder, matches, percussion caps, saltpetre, indigo, glass, liquids, &c , or any article which either in itself (however packed), or by reason of insecure packing, may be liable to injure the contents of the mail bag or the person of the Anchal officers.

37. No address is complete which does not contain the Anchal station from which delivery is intended and care should always be taken to write the name of the Anchal station as clearly as possible.

38. Persons changing their place of residence are particularly required to leave written instructions to the Anchal office of their previous residence and to send written instructions to the Anchal office of the place to which they may be going.

39. The Anchal Master at any station or the person in charge of the Anchal office has power to refuse letters or other articles bearing the appearance of having been opened and re-closed or otherwise improperly dealt with, unless the writer or sender thereof shall attest with his full signature that they were sent in that state. The refusal will be absolute in the case of registered letters and parcels.

40 Persons not belonging to the department shall not be admitted into the interior, nor permitted to examine the records of any Anchal office without the special permission of the Dewan, to whom or the Anchal Superintendent application for information or redress must be made either in person or in writing by the party requiring the same. 2. The "Hundi" is an order granted by the Anchal Office for the payment of a sum of money through the agency of the Anchal Office.

A 'Remitter' is the person who sends money by means of a Hundi.

A 'Payee' is the person named in a hundi as the person to whom the money is to be paid.

* 3 The amount for which a single hundi may be issued must not exceed Bh. Rs. 500 and no person shall be allowed to obtain one day several hundies payable to the same payee the total of which exceeds Bh. Rs. 500.

4. A commission on the issue of hundies will be charged at the following rates :—

for every Bh. Rs. 5 or fraction thereof ... ...1 ch.†

5. The remitter of a hundi must fill in, in ink, on the hundi form (which will be supplied to him gratis by the Anchal office) the necessary entries adding his signature at foot. He must also write his own name and address on the (acknowledgment) portion of the form. Entries must be legible and may be written in English, Tamil or Malayalam, either by the remitter himself or by any one on his behalf. The remitter may write on the 'Coupon' any communication he desires to make to the payee regarding the remittance.

6. The hundi form duly filled in together with the amount of the hundi and commission must be presented at the Anchal Office window during the prescribed hours.

7. The name and address of the payee must be entered with such completeness as shall secure identification and prevent the risk of wrong payment. The occupation, trade or profession of the payee and any other particulars calculated to help in identifying him should be added. The name of only one person may be entered as the payee except in the case of Firms or Corporations whose usual designation must be given. A hundi payable to a Government official, Bank manager or an Editor of a newspaper &c. in his public capacity should contain the designation, not the name of the person to whom the Hundi is intended.

8. The Anchal Office will not be responsible for the wrong payment of a hundi caused by incorrect or incomplete information given by the remitter as to the name and address of the payee.

9. A receipt will be given to the remitter for the amount paid by him on account of the hundi and commission. Any error or omission should be pointed out at once by the remitter; otherwise, the Anchal Office will not be responsible.

10. The payment of a hundi will ordinarily be made at the address of the payee on his signing the hundi and acknowledgment and returning them to the Anchal peon.

11. The hundi and acknowledgment must be signed by the payee named by the remitter or by some person authorized in writing by the payee in his behalf. The signature must be written in ink in the space provided for the purpose. If the payee of a hundi resides at a station where there is no Hundi Anchal Office and the payment cannot be effected in the usual way, a notice of the arrival of the hundi will be sent to him service-bearing by the Anchal master, requesting him (the payee) to attend personally or send an agent duly authorised in writing to sign the hundi on his behalf to receive payment of the amount. In either case, the notice issued by the Anchal Office must be returned to the Anchal master.

12. The remitter of a hundi is entitled to obtain free of charge an acknowledgment of the payment of the amount of the hundi signed by the payee. Should the remitter fail to receive an acknowledgment in due course, he should represent the matter to the Anchal master who will take the necessary steps to obtain it. If it is found after making the necessary enquiries that the acknowledgment is lost, he will obtain a certificate of payment free of charge signed by the Anchal Master of the office of payment.

13. If the payee of a hundi is illiterate, it will be necessary for him to make his mark on the hundi in the presence of two respectable witnesses whose signature must also be obtained in the hundi.

14. If a person removing from one Hundi Anchal Office to another Hundi Anchal Office leaves written instructions with the Anchal master of the former place to redirect any hundi that may become payable to him after his departure, the instructions so given will be carried out free of charge and the hundis will be made payable at the Anchal Office to which they are so redirected.

15. The remitter of a hundi which has not beeu paid may require that the address of the payee shall be altered or that the name of the Anchal Office at which the hundi was originally made payable shall be changed. The required change will be made without additional charge on the remitter's applying in writing to the Anchal Office at which the hundi was issued.

16. The remitter of a hundi which has not been paid may require that the amount be paid to some person other than the payee named in the hundi. The required change will be made on payment of a second commission equal to the first on the remitter's applying in writing to the Anchal Office at which the hundi was issued and producing the receipt granted to him for the hundi.

17. The remitter of a hundi which has not been paid may stop payment and require that the money be repaid to himself. This will be done without additional charge on the remitter's applying in writing to the Anchal Office at which the hundi was issued and producing the receipt. Payment can also be stopped by telegram, if the remitter pays for it and if there is a telegraph communication between the offices of issue and payment. In no case, however, will the Anchal Office be responsible for inability or failure to stop payment of hundi in compliance with the remitter's request.

18. If the payee of a hundi cannot be found or if the payee refuses to take payment, the amount of the hundi will be returned at once to the remitter free of charge. The commission will in no case be refunded.

19. If payment of a hundi to a payee cannot be effected and the amount cannot be repaid to the remitter owing to the latter not being found, the hundi will become void and its value will be credited to Government. But if the payee or remitter or their heirs subsequently apply for payment before the expiration of one year from the date of issue of the hundi the amount of the hundi will be paid to him with the sanction of the Dewan.

20. The payment of a hundi may be deferred for a period not exceeding a week owing to an exceptional state of treasury balances or any other special cause. Such instances will, of course, be very rare. (28th May 1901).

ANCHAL NOTICE.

No. G. 2152

1. To avoid delay in receiving "service" letters and other "service" articles by public officers from Anchal offices, all officers having peons of their own are required to send one of them to the Anchal office and take window delivery of letters and other articles to their address.

2. This peon may be authorised to sign receipts for registered letters and articles under Anchal Rule 30.

3. Government sanction a window delivery fee of Rupee (1) one per mensem being charged by the Anchel Department to officers who may like to use *tapal* boxes with locks and duplicate keys, one of which may be left with the Anchel master, for taking window delivery of their "tapal". The fee may be paid from the contingent fund of the officer.

4. Persons other than public officers also may, in the same manner, use tapal boxes for taking window delivery of their covers on payment of a fee of one Rupee per mensem to the Anchal Department.

5. These rules will come into force from 14th May 1909/1st Vycausy 1084.

ANCHAL NOTICE.

For the convenience of tax-payers, who wish to avoid the trouble of going to Proverty Cutcherries to pay their taxes, the following rules are sanctioned by Government tentatively for a year, to admit of the tax being remitted to Proverthy Cutcherries by means of Revenue Hundis, through the Anchal Department. The rules will come into force from 1st Chingom 1085.

Rules relating to revenue hundies.

1. Revenue hundies are a special class of Anchal hundies by means of which a landholder paying land tax to Government may remit the amount of the tax to the Proverthicaren in whose Proverthy the land on which the tax is due, is situated.

2. In these rules the term "Proverthicaren" will include all officers authorised to receive land-revenue and grant a receipt.

3. Revenue hundies will be used only for the remittance of land-tax cesses, and any other item of land-revenue.

4. If a land-holder has lands covered by different *pattas* in the same Proverthy he may remit the tax due on all such *pattas* by a single hundi, but the amount paid in respect of each such patta should be separately entered in the hundi form.

5. It must be strictly understood that the use of this system of paying land-tax is optional, no land-holder is compelled to resort to it, unless he wishes to do so.

6. Revenue hundi form is divided into three parts :—

(*A*) *The hundi.*

(*B*) *The memorandum of particulars of remittance.*

(*C*) *The acknowledgment.*

7. Revenue hundies may be issued from any Anchal office from where ordinary hundies are issued and must be drawn on an Anchal office within the sphere of which the Proverthy Cutcherry of the payee is situated, and will be governed by the rules of ordinary Anchal hundies.

8. The Anchal office of issue is responsible that no revenue hundi is issued in which the memorandum of particulars of remittance (part B) and the acknowledgment (part C) are not completely filled up. But the Anchal office is not responsible for the correctness of the particulars.

9. If the amount of the revenue hundi falls short, or is in excess, of the amount payable by the land-holder concerned or if the issue or the delivery of the revenue hundi is too late for the kist day, the Proverthicaren must still receive it.

10. If the Revenue hundi form is not properly and correctly filled up and gives room for doubt as to any particular item and in cases where rival claimants transmit hundies with a view to defeat rightful claimants, such hundies may be refused by the Proverthicar. But the reasons for such refusal should be noted in the column provided for the purpose.

11. The issue of a Revenue hundi which is ultimately delivered to the Proverthicar concerned too late for the kist day, does not exempt the remitter from the payment of demand notice fees if they have been issued in the interval.

If the post-town is a very small one or if there are other post-towns of the same name, the name of the district must be added *in brackets*, but if the name of the district is the same as that of the post-town, the name of the province should be added instead of the name of the district. The sender of the postal article should write his name and address on the lower left-hand side of the envelope or cover. The certificate may be written on a slip of paper, or in a book and should be presented at the post office with the articles to be posted. It should contain an exact copy of the addresses on the article to which it relates and should have a postage stamp, or stamps, affixed to it in payment of the prescribed fee which will be charged as follows:—(1) In the case of unregistered parcels (ordinary or value-payable) and value-payable unregistered book packets—$\frac{1}{4}$ anna per every six articles of either or both oi these classes or for any less number. (2) In the case of unregistered letters, postcards, book packets (including registered newspapers), and pattern packets,—$\frac{1}{4}$ anna for every three articles of any of these classes, or for any less number. A separate certificate must be presented for each of the two classes of articles (1) and (2), headed with the words "certificate of posting for parcels" or "certificate of posting for letters," as the case may be. The post office will deface the postage stamp or stamps, impress the date stamp on the certificate and return it to the person who presented it.

POST CARDS.

NOTICE.

From 1st October 1904, the following rules for the registration of abbreviated Addresses will come into force.

The addressee's name and address may be written in an abbreviated form, but the right of an addressee to have a telegram thus addressed delivered to him, is subject to an arrangement made between such addressee and the Telegraph Office which has to deliver the telegram. Abbreviated addresses may be registered under the following conditions:—

(1) Application for the registration of such addresses should be made to the officer in charge of the Telegraph Office, at which it is proposed to register an address. The Telegraph Department cannot arrange for registration of an address at any place in a foreign country.

(2) No address may consist of more than one word, in addition to the name of the town where registration is affected.

(3) The word should contain not more than ten letters, and should be easy to read and easy to telegraph. Proper names can only in rare cases be accepted, and in no case can a proper name be registered for a person of a different name.

(4) The names of professions, trades, countries, states, towns, telegraph-stations, well-known streets and registered newspapers may not be used as registered addresses.

(5) Numbers may not be registered.

(6) To prevent inconvenience to the public, the Telegraph Department has to reject words which, either in writing or in telegraph symbols so closely resemble other registered words as to be liable to be mistaken for them. It is desirable, therefore, that any application should not merely offer one word for acceptance, but should give several words from which a selection may be made.

(7) No address may be registered in one town for the delivery of telegrams in another town.

(8) A registered address is available for telegrams from other countries as well as for Inland telegrams.

(9) The Telegraph Department reserves to itself the right to cancel an address. In such a case a part of the registration fee proportionate to the unexpired period, is returned, or a new address may be substituted free of charge for the one cancelled.

(10) In the event of a change in the title of a firm for which an address is recorded, the consent, in writing of all the partners of the firm must be produced before the records can be altered.

(11) It is desired that a registered address should be published in the *Telegraph Guide*, that fact should be clearly intimated to the Telegraph Office at which registration is effected at the time of registration. No additional charge is made for such publication. Addresses which are not to be published will be considered as confidential

(12) The fee for registration of an abbreviated address is Rs. 10 per year or Rs. 5 payable in advance or any date on which registration may be effected for 6 months. The fee for registration should be paid to the officer in charge of the Telegraph Office at which registration is effected.

(13) An additional fee of five rupees is charged for every change of the word selected, or for every transfer to another Telegraph Office but not for change of residence within the delivery limits of the registering office, or for change of name, or title of firm or person, so long as the identity is the same (see condition **10**), and it is not a case of transfer from one firm to another, if it is a case of transfer the full fees are charged.

(14) The Telegraph Department accepts no responsibility in respect of the delivery of any telegram having an abbreviated address if such address has not been registered, or for delay in delivering such telegram. Registration is essential in all cases of persons who frequently receive telegrams addressed to them by an abbreviated name, and Telegraph officials can decline to deliver such telegrams if after notice has been given, the address has not been registered.

TRAVELLERS' BUNGALOWS IN TRAVANCORE.

Rules for Travellers.

These bungalows are placed in the charge of the Public Works Department.

2. No person is permitted to remain in a Bungalow more than one day (unless compelled to do so by sickness) if any other Traveller requires accommodation, or if not required by any other Traveller, for more than ten consecutive days without the written permission of the Executive Engineer in charge.

3. The first applicant is entitled to the choice of rooms, but he is not permitted to appropriate to himself more than one sitting room, dressing and bath room, (when the others are in demand) unless in the case of a family of more than 2 in number (children under 5 years of age excepted) when one main room, 2 dressing rooms and 2 bath rooms can be occupied. Should extra chairs or any other furniture be taken from unoccupied rooms, they must be returned immediately the rooms are required by another Traveller.

4. Defacing the walls by drawing or writing is strictly prohibited, and Travellers are held responsible for the structure and its contents being preserved from injury and defacement during their occupation.

5. A list of the furniture &c., supplied to the Bungalow (with the value of each article) shall be provided for the information of Travellers, according to which payments should be made in the event of destruction or injury, the amount being handed over to the care-taker or head servant and entered by the Traveller in the Bungalow book.

6. A book is kept at the Bungalow in which the occupier is requested to make the usual entries with remarks, if any be necessary, on the conduct of the servants, cleanliness (or otherwise) of the Bungalow and compound &c.

7. Under no circumstances should any article be removed from the Bungalows on loan or otherwise; nor should the Bungalows be occupied by any one not a *bona fide* Traveller.

8. The servant in charge is ordered, on pain of dismissal, to report any deviation from these Rules either on the part of Travellers, or their servants; and the occupier is held responsible for any infringement of them.

9. Every occupier of a Traveller's Bungalow is required to give his full name and address on demand by the person in charge.

10. Every Traveller halting at a first class Bungalow, *i. e.*, a Bungalow provided with ordinary servants, for not more than 6 hours, shall pay a fee of 8 annas. If the halt exceeds 6 hours a fee of 1 rupee shall be paid for the first day and each succeeding day of occupation. When a family of two or more occupy the Bungalow, half the above fees will be charged for each member of the same family above 5 years of age, this concession not being applicable to the principal member who will have to pay the full fee.

11. Every Traveller halting at a second class Bungalow for not more than 6 hours shall pay a fee of 4 annas. If the halt exceeds 6 hours, a fee of half a rupee shall be paid for the first day and each succeeding day of occupation. When a family of two or more occupy the Bungalow half the above fees will be charged for each member of the same family above 5 years of age, this concession not being applicable to the principal member who will have to pay the full fee.

12. At 2nd class Travellers' Bungalows, servants are not provided by Government. Travellers are therefore expected to pay for the services of a sweeper, or waterman or any other specially engaged person if such services are needed.

13. When fees are due by the same traveller for 3 days, they should be paid every 4th day at the latest

14. Bullocks must not be put in the stables, or tethered in the compound: they must be taken outside; should there be insufficient accommodation in the stables, horses should not be tethered in the compound.

15. Servants travelling separately from their masters with horses or luggage, may have accommodation provided there is room and will be charged half the fees in para 10 whether the Bungalow be a 1st or 2nd class one. Those Travellers occupying the Bungalow will, however, have prior claims to the stable, whence other horses must be removed if required

16. Travellers requiring the butler to cater for them must advance the required amount to him immediately on their arrival. The butler is not supposed to first cater and then present a bill, but payment must be made to him in advance.

NOTE :—"The first day" in paras 10 and 11 means a day of 24 hrs. reckoned from the arrival of a traveller at a Bungalow. Fractions of a day other than those falling within the first 6 hours of occupation of a Bungalow by a traveller will be treated as full days and charged accordingly.

NOTIFICATION.

It is hereby notified that flint pebbles for use as rolling ballast in tube mills for the manufacture of cement cannot be held to be component parts of a cement mill, but should be regarded as consumable stores used in working the mill and that, as such, duty should be levied on them at five per cent *ad valorem*, whether they are imported separately or along with the machinery of a mill. (No. P. D. 987 dated 30th July, 1902.)

It is hereby notified that exemption from duty of re-imported goods allowed under certain conditions in 1879 applies only to private property re-imported for personal use and does not extend to the property of a Railway or Steamer or other Company formed for public carriage or transit when such property is re-imported for use in the Company's service. (No. P. D. 1364 dated 29th September, 1902.)

English Tobacco used for smoking lb.	3 8 0	do.	
Cigarettes *ad valorem*		do.	
Goodak lb.	8 0	do.	
2. Indoopu Indian md. 3,200 tolas		Re. 1 0 0	

3. Salt, ordinary salt cannot be imported except on account of Government.

4. Opium and ganja cannot be imported except by Government contractor.

2. Railway officials residing in Railway premises or within Railway limits within Travancore State, are not exempt from customs dues but must pay them on any dutiable articles imported or exported by them. A Travancore Customs officer will be at the station on the arrival and departure of each train to assess such articles and receive the prescribed duty, in case of such Railway employees who may find it inconvenient to go to the Customs office.

3. A Customs House official shall be permitted to be present at the Railway parcels office or goods-shed to conduct passengers and others clearing parcels or goods to the Customs House for examination.

4. Whenever modifications are made in the export or import tariff, the same shall be communicated to the agent.

5. The Travancore Government will grant licenses (copy subjoined) free of charge on the application of the traffic manager for such platform vendors who may wish to sell tobacco, cigars, &c. The tobacco sold in the Railway premises must be tobacco on which duty has been already paid to the Travancore Government. The payment of duty on all dutiable

articles imported or exported, subject to a penalty, shall be made a condition of the agreements executed with the Railway by all such vendors.

6. The way bills, invoices, receipts and station registers of all goods and parcels traffic received at stations shall be open to the inspection of the Customs Department for the purpose of enabling them to levy duty.

7. Customs Houses have been erected to control the exits from stations and the Railway Police or the Station Master, at the stations where there is no Railway Police, will be responsible for consignments of goods or parcels containing dutiable articles not being removed except by those exits.

8. No duty shall be leviable on goods or parcels until removed from the Railway stations except in the case of Railway servants (*vide* para 2 *supra*). Such duty will be payable at the Customs Houses as the goods or parcels are passing out.

9. No duty shall be leviable on any goods arriving at a station where Customs duty is levied, which, instead of being delivered at that station, are re-consigned to another station without passing from the Railway premises. This does not affect the levying of Customs duty at the ultimate destination where the goods or parcels will be treated in the same way as if sent direct.

10. Customs duty shall not be levied on unclaimed goods or parcels nor on goods or parcels mis-sent to a Customs station.

The former will be treated in the same way as unclaimed goods generally under the Railway rules and, except perishables will be disposed of out of Travancore. Nothing in this rule shall be taken as prohibiting Travancore Customs officers from levying duty on such goods on their removal by the purchasers from the Railway premises into Travancore.

11. Passes will be given free of charge to the Customs Houses on goods or parcels despatched from one goods station to another in Travancore. These passes should be sent by the consignors to consignees with the goods or parcels receipt and the goods will be passed free of duty at destination on the authority of such passes.

12. Licensed vendors shall not be allowed to import tobacco under any circumstances.

13. The railway authorities shall permit the Travancore Customs officers to make searches and examinations under the Travancore Tobacco Regulation and the Rules and Notifications in respect of tobacco bought and sold in Travancore stations.

4. The Pier as well as the Tramway shall be under the direct charge of the Pier Master, who will be under the immediate orders of the Port Officer.

5. When the work of shipping or landing is carried on in the Pier, no one other than the Port and Customs Officers, *bona fide* shippers and landing agents, and licensed coolies, shall ordinarily be allowed to enter the Pier. On such occasions, entrance to the Pier to the employes of *bona fide* shippers and landing agents shall be by tickets issued by the Pier Master In the case of others, special permission for such entrance has to be obtained from the Port Officer.

6. When no work is carried on in the Pier, it shall be open to the public from 7 M. P A..to 8M.

7. Fishing from any part of the Pier or stages will not be allowed except under the written permission of the Port Officer.

8. Dirtying the Pier by spitting on the boards, rubbing chunnam on the hand rails, lamp posts, cranes, seats &c., or by other similar acts, is strictly prohibited. Any one infringing this rule will be liable to be turned off the Pier.

9. Painting, tarring and other maintenance works and repairs to the Pier shall, ordinarily, be attended to when no landing or shipping is carried on in the Pier.

10. The lamps on the Pier shall be lit both during dark and on moon light nights. When there is no shipping or landing, only alternate lamp need be lighted.

12. Temporary stages may be attached to the Pier whenever necessary. They shall be removed when the port closes during the monsoon or when the sea is rough and there is danger of their being washed away.

13. The trucks used on the Pier shall, after the day's work is done, be removed from the Pier and kept in the shed intended for the purpose.

14. The shipping and landing of goods in the Pier shall be done only by means of trucks, except when the Port Officer considers the carrying of goods by head load necessary in cases of emergency. This will not, however, exempt such goods from the tramway hire due under Rule 3.

15. Heaping the Pier with large quantities of cargo is strictly prohibited. The Pier Master shall decide whether any quantity of cargo is large or small for the purpose of this rule.

16. The work of shipping and landing shall ordinarily be carried on between 6-30 A. M. and 6-30 P. M. 19. The owner or hirer of the boat that is first alongside a crane or stage shall have first claim to use it until the boat is loaded or unloaded and the boats that arrive subsequently shall be loaded or unloaded in the order in which they arrive. It is not intended that empty boats, or boats nearly empty, and waiting for cargo for shipment, shall retain prior right to the use of cranes or stages to the exclusion of others. Right of precedence holds good only so long as boat and cargo are both ready for work.

20. The use of the stages and cranes will be allowed by the Pier Master in proportion to each applicant's requirements in regard to shipping and landing.

21. The loading of trucks with export cargo from the godowns or canal boats shall ordinarily be regulated in the order in which the boats are berthed in the Pier, so that the boat berthed farthest will be supplied by the trucks standing foremost, the next boat by the trucks standing behind the first set, and so on.

22. It shall be the duty of the officer in charge of the Customs House, who shall be the *ex-officio* Boat-Master to see that the boats brought alongside the stages or T heads have the full complement of licensed boatmen to load or unload cargo.

23. The whole labour required for the transmission of goods from the canal boats, near the Customs House to the sea boats, or from the sea boats to the canal boats will be supplied by the Port Officer, and only licensed coolies will be allowed in connection with the work of shipping and landing at the Pier.

In the case of salt, the rate of 2 annas per candy will include only the transmission of the bags to the weigh bridge in the salt depot and thence to the storage sheds by head load after weighment. It will not include the further labour involved in the storage, such as emptying the bags in the sheds, scraping them &c. The rates mentioned above are exclusive of the pier toll and tramway hire chargeable under Rules 2 and 3 respectively. The rates of cooly hire will be subject to revision, if necessary, after trial for one year.

26. The labour required for shipping and landing goods at the monsoon port will also be supplied by the Port Officer, and a uniform rate of 4 annas a candy from canal boat to sea boat, and *vice versa*, will be charged on all ordinary goods.

27. The cooly hire and other charges payable under these Rules shall so far as exports are concerned, be recovered from the shippers immediately after the shipping is completed in the case of steamers, and before shipment in other cases. As regards imports, such hire and charges shall be recovered within a week of the clearance of the steamer or other vessel, and, in any case, before the goods are removed from the custody of the Customs Officer.

28. The work of collecting the dues under these rules shall rest with the Customs Department.

29. The decision of the Port Officer shall be final in all cases of disputes regarding the transmission of cargo and the berthing, loading and unloading of boats.

1, The owner of the goods should, at the time of the import, make a declaration, in such form as the Excise Commissioner may prescribe, and present the same to the officer in charge of the Customs House through which the goods are imported, for the grant of a certificate to enable him to export the goods free of duty, later on, through one of the Customs Houses mentioned above.

2, On receipt of such declaration and on production of the goods mentonied therein, the officer in charge of the Customs House through which the import is made shall weigh the entire consignment and enter in a Register to be specially kept for the purpose, the results of the weighment, the description of the goods, the number of packages, the name of the importer, the date of the import and the Customs House through which the goods are intended later on to be exported.

3. The officer in charge of the Customs House through which the import is made shall grant a certificate to the importer, in such form as may be prescribed by the Excise Commissioner, provided that the goods are capable of being easily identified. The certificate so granted shall be in force only for a period of one year from the date of issue.

4. The officer in charge of the Customs House through which the import is made shall forward the duplicate of the certificate to the officer in charge of the Customs House through which the goods are intended to be exported, while the original declaration made by the owner of the goods at the time of the import shall be sent to the officer in charge of the Circle into which the import is made.

6- The Officer in charge of the Customs House of export shall then reweigh the entire consignment and enter the results of such re-weighment in a register kept for the purpose. If no difference is observed between

7. All cases in which there are reasonable grounds for doubting the identity of the goods or the continuity of the ownership in them, shall be reported for the orders of the officer in charge of the Circle.

8. In cases where the results of the original weighment and the re-weighment show any difference, the officer in charge of the Customs House of export shall adopt the following procedure :—

(*b*) If the re-weighment shows a decrease, not exceeding 10 per cent of the original weight, the goods shall be passed free of duty.

(*c*) In all other cases, the goods shall be detained and the fact reported for the orders of the officer in charge of the Circle.

9. Whenever goods are passed under Rule 6, or under clause (*a*) or (*b*) of Rule 8, the officer in charge of the Customs House of export, passing the goods, shall forward the original certificate delivered by the owner of the goods, after entering therein the quantity passed free of duty and the quantity assessed to duty, if any, to the officer in charge of the Customs House through which the import had been made. The latter officer shall, on receipt of the certificate, affix it to its counterfoil.

10. 1. Licenses for the sale of foreign liquor shall be of the following descriptions.—

I. *Wholesale licenses, i. e.,* licenses for the sale of foreign liquor not to be drunk on the premises.

Under these licenses, the sale of liquor in any quantity less than one pint is prohibited.

II. *Retail or tavern licenses, i. e.,* licenses for the sale of foreign liquor for consumption on the premises.

No removal of liquor from the premises will be allowed under these licenses.

III. *Licenses for the sale, as tonic or medicine, of medicated wines and similar preparations* containing 20 per cent and upwards, but not more than 42 per cent of proof spirit. These licenses will be issued on payment of an annual fee of Rs. 25.

IV. *Occasional licenses,* such as licenses for the sale of liquor at refreshment stalls in connection with public festivals, entertainments &c. These licenses will be issued for periods not exceeding 15 days at one time and on payment of a fee of Rs. 10 for every 24 hours or fraction thereof. No removal of liquor from the premises will be allowed under these licenses.

V. *Special licenses.* These will be granted when the circumstances are such as not to allow of the issue of licenses of any of the other descriptions, on such terms and conditions and for such periods as may be determined by Government.

2. The places sanctioned for the sale of foreign liquor under wholesale or retail licenses, the maximum number of wholesale or retail licenses allowable in each place, and also the fee fixed for each license, are given in the Schedule hereto annexed.

3. The minimum strengths at which foreign spirits can be sold are 25° under proof for whisky, brandy and rum, and 35° under proof for gin.

4 Two or more of the kinds of licenses described in Rule 1 *may* be granted to one and the same person and for one and the same place.

5. It shall be competent to the Excise Commissioner to issue the licenses. All licenses (other than occasional and special licenses) will have effect during the Malabar year, *i. e.,* from the 1st Chingam to the last day of Karkadakam.

6. No license shall be issued unless the full amount of the fee prescribed therefor is paid in advance.

7. No license will be issued for a shop which is situated, or which is intended to be opened in a place where, on grounds of police administration or public expediency, it is objectionable to permit any traffic in liquor.

8. The Exise Commissioner may grant or refuse any license without assigning any reasons.

9. Applications for licenses should ordinarily be sent to the Excise Officers in charge of the respective Circles. The applications should describe distinctly the localities where the shops are situate or are intended to be opened and should state the kind of licenses required. They should also be accompanied by treasury receipts in acknowledgment of the payment of the proper fees. When an application is rejected, the fee tendered will be returned.

10. All orders passed by the Excise Commissioner under these rules will be subject to revision by the Dewan, whose decision will be final.

11. Licensees for the sale of foreign liquor are prohibited from rectifying the spirits by purifying, colouring, or flavouring, or mixing any material therewith.

12. Every receptacle containing spirits manufactured and flavoured coloured or compounded in India, and received or kept for sale, must be conspicuously labelled or branded with the words "spirit manufactured in India". All liquor imported in bulk and bottled in Travancore, received or kept for sale, must bear a printed label showing clearly the country of manufacture, the name of the bottler as entered in his license and the place of bottling.

13. It shall be competent to the Excise Commissioner to permit or to order the transfer of any shop from one locality to another, within the town or taluk as the case may be, or to order any shop to be closed in the interests of public peace or morality, or on grounds of expediency.

14. The sale or possession (except subject to the rules applicable to unlicensed persons) by a licensee, of any liquor outside the limits of his licensed premises, is prohibited.

15. All liquors sold or kept for sale shall be of good quality and unadulterated. Nothing shall be added to them to increase their intoxicating power or for any other purpose.

16. The sale or transport of liquor by persons suffering from leprosy or any contagious disease, and the employment of such persons in shops for the sale of the same, are prohibited.

20. No drunkenness, rioting or gambling shall be permitted within a shop, and no persons of notoriouly bad character shall be permitted to meet or remain therein. Intimation of any offence committed, or of the presence of habitual offenders or disorderly persons, shall be given by the licensee to the nearest Magistrate or Police Station.

21. Such returns and information, as may required by the Excise Commissioner from time to time, shall be furnished by every licensee.

22. The licensee shall not lease out, sell or otherwise transfer his license, without the written consent of the Excise Commissioner.

23. The licensee shall, on requisition by the Excise Commissioner or any officer duly authorised by him, deliver up his license for amendment or renewal.

24. Infraction of any of the conditions of the license, either by a licensee or by any person in his employment, will entail on the licensee, either

(*a*) fine up to Rs. 50, or

(*b*) cancellation of the license, or

(*c*) both.

It shall be competent to the Excise Commissioner to impose any or all the above penalties.

25. The imposition of a fine or the cancellation of a license under these rules shall not however relieve the licensee or his agents from liability to be prosecuted for any specific offence committed against the Abkari Regulation or under these rules.

26. The Excise Commissioner may, upon giving 15 days' notice, revoke any license, in which case a proportionate part of the fee paid by the licensee shall be refunded to him.

27. All Excise officers, of and above the rank of Inspectors, shall have authority to inspect licensed shops, to examine the premises, to test measures in use and the articles under sale and to call for and check the accounts kept in the shop.

28. The licensee shall possess or use on the licensed premises, only such standard measures of capacity as may, from time to time, be prescribed by Government.

ARMS AND AMMUNITION.

MEMORANDUM.

The following Memorandum upon the Law regarding arms and ammunition is published for information:—

1. Dwellers in Travancore or Cochin States who wish to bring from British India into these States arms or ammunition must apply to the Resident for a no-objection certificate and must forward this certificate to the Commissioner of Police, Madras, who has power to grant a permit.

2. Those who wish to send into British India from those States arms or ammunition must obtain a license from the Commissioner of Police Madras, or from the Magistrate of the District to which the consignment goes.

3. If it is desired to send into British India arms solely for the purpose of repair, European and East Indian subjects of His Majesty and other persons enumerated in Rule 1 of the Arms Act Rules can obtain from the Resident free of charge a permit to import such arms into British India and to afterwards export them from British India into these States.

4. There are special restrictions regarding all rifles of ·303 bore and rifles of ·450 or ·577 bore which are of the Snider or Martini-Henry pattern. The importation of these rifles into India has now been absolutely prohibited. Persons who already possess such a rifle ought to apply to the Resident for a license to possess it. Such license will be granted free of charge to European and East Indian subjects of His Majesty and to others as aforesaid. This license ought to be deposited with a dealer in ammunition who has received the permission of Government to keep a stock of ammunition for such rifles. Messrs. P. Orr & Sons of Madras have this permission. A licensed holder of such a rifle can obtain from the Resident a permit to obtain 200 rounds of ammunition per annum for sporting purposes.

5. Travellers entering or quitting Travancore State and dwellers in Travancore who write to Madras for arms or ammunition must also bear in mind the provisions of Travancore Regulation III of 1061. Arms or ammunition cannot be imported into or exported from Travancore without a license from the Dewan of Travancore. This Regulation is strictly enforced by the Travancore officials on the frontier and European Travellers who were ignorant of this Regulation have been arrested and fined because they carried arms without the Dewan's permit. Applications for such license should be made in writing to the office of the Dewan at Trivandrum. In order to suit the convenience of travellers who carry arms for protection and who frequently cross and re-cross the Travancore frontier, the Dewan of Travancore will grant licenses valid for a period not exceeding one year. (22nd September, 1902).

In continuation of the Memorandum dated 22nd September 1902, upon the law regarding Arms and Ammunition, it is announced that the Government of India believing that Sniders rifles of ·577 bore are obsolete as military weapons and are imported into India only for sporting purposes have withdrawn any special restrictions regarding Snider rifles of ·577 bore. The Restrictions regarding rifles of ·303 bore and regarding rifles of ·450 bore of the Martini-Henry pattern continue in force.

Memorandum.

The Resident is empowered to permit the import into the Travancore and Cochin States from British India of rifles of ·303 bore and of rifles of ·450 bore of the Martini-Henry pattern and of ammunition for these rifles not exceeding two hundred cartridges in one year for the personal use of the owner of the rifle.

3. These permits by the Resident to import these rifles can be given only to persons exempted by Rule I of the Arms Act Rules and can be given only for rifles which were in India on February 20th, 1901, or have since that date been brought into India with the special permission of the Government of India.
