ANNUAL MEETING.

CHAIRMAN'S ADDRESS.

GENTLEMEN,—The Committee's Report and Accounts for the year have been circulated and are before you and I now have to move that they be adopted. Our thanks are due to Mr. Muir who has kindly acted as Honorary Auditor. The accounts show a surplus on the year's working of Rs. 3,902-1-11 which is Rs. 412-4-2 less than in the previous year. Measuring fees have fallen by Rs. 1,200 due largely to increased shipments from Alleppey and no entrance fees have been received during the year. On the other hand, a saving has been effected by a discontinuance of Lloyd's Register, an economy with which I cannot agree and I hope that this very useful book of reference will always be kept up to date. Provision should also have been made for our donation towards the expenses of the Association's staff at Delhi for which a provision of Rs. 720 is necessary. Allowing for these items our profit for the year falls to Rs. 2,900. I do not think further reference to the accounts is necessary.

You also have before you the usual statements of Exports for the year. These are drawn up as you probably know in my Office and are, I think, presented in a clear and concise manner and require very little explanation. A feature which is, I think, of special interest is that while total exports of *Coir Yarn and manufactured Mats and Matting* only show a very small increase, shipments to Foreign Ports have been substantially increased at the cost of exports to India and Burmah. In *Coir Yarn* the shipments to Eastern Ports have declined by 5·7%.

Turning to *Cocoanut Oil* shipments to Foreign Ports have again declined by 70 % whilst *Copra* fails to figure at all as an export by the European firms. *Poonac*, on the other hand, has again come more to the fore. Shipments to European markets have increased by 128 %.

Taking the products of the *Cocoanut*, as a whole, we see that shipments to all markets have declined by 4.5 % the Eastern proportion falling by 1.8 %.

TURNING TO SPICES.—In *Pepper* a smaller crop is reflected by a falling-off in Indian demand of 31 %, whereas exports to Foreign Ports were practically on a par with the previous year. A world's shortage resulting in very high prices was responsible for a falling-off in Indian consumption which enabled exporters to procure their requirements. Indian demand, however, is still capable of consuming about 60 % of the crop and in a year of easier prices probably not less than 75 %.

Very small crops of *Ginger* accounted for a large falling-off in exports. Foreign Exports declined by 60 % probably the restrictions on imports of bleached or sulphured *Ginger* into the U. K. was partially responsible for the lack of demand.

In *Estate Produce* favourable weather resulted in good crops and exports increased by 39 % in Tea and 11 % in Rubber. The poor prices in the Colombo market resulted in more Rubber being shipped direct to London and New York and a decrease of 267,000 lbs. in shipments to Colombo.

When speaking last year my predecessor remarked that the trade outlook appeared to be distinctly more hopeful for the year I am now reviewing than for the preceding year. To a certain extent his prophecy has come true. We have enjoyed steady exchange. The highest buying rate for demand bills was touched on 28th

December when the rate was 1/6, 5/32 and the lowest on 7th July, 1927 when the banks were buying at 1/5, 29/32.

Freight rates have also remained fairly constant throughout the year. We have not been troubled to any large extent by discontent and strikes amongst our labour which have been so prevalent in other parts of India.

I am afraid the figures before you relating to *Imports* are not very full. We have again had difficulty in procuring the information we require from the Madras Customs. The figure which concerns us most however is, I think, correct. Total Imports into Cochin from all sources have increased by just on 89 lakhs. This is very largely due to increased grain imports. Total grain imports into Cochin for the season amounted to 3,286,727 bags or if we make allowance for the larger sized bags which come from Saigon this is increased to 3,365,559 bags rather over 7 lakhs increase on the previous season, but falling short by $1\frac{1}{2}$ lakhs of the year 1924/25. This improvement in our grain imports is due partly to a falling-off by about 75 % of arrivals by rail due to poor crops in Bengal, partly due to the failure of the Cholan crop, which resulted in very good demand from the Coimbatore area, and partly due to low price. When rice is cheap the poor classes can buy it, but when high prices are ruling they rely more on Tapioca and other cheap food-stuffs. For the first time in the history of the Port large shipments of Rice and Paddy have been coming forward from Indo-China. This rice has found favour and it looks as if the trade has come to stay more especially as freights from Saigon are now cheaper than those from Burmah.

Sugar imports have increased by nearly Rs. 11 lakhs, but I am afraid this increase is not justified. There is no doubt that our local merchants over-traded in Sugar last

season with rather disastrous results and I am sure that greater caution will be evidenced during the coming season.

Cochin has witnessed during the year a very distinct and gratifying development in our *Harbour Scheme*. A complete cut 400 feet wide by 32 feet deep was made through the bar prior to the monsoon and observations show very little if any silting during the monsoon. The Pessimists may advance arguments that the monsoon has not been a normal one, but although our rainfall is considerably below the average, which incidentally has meant less scour through the channel, I think if you will cast your minds back to the early days of June you will agree that in so far as the surf and bad seas are concerned the experimental channel has come through fairly normal conditions. The new ball joints for the pipe line have proved very satisfactory.

We have now reached a stage when medium-sized steamers can enter the harbour and work inside. At present steamers up to a length of 400 feet with a maximum draft of 23 feet are coming inside, but even the smallest vessels will again have to remain in the outer roads during the period from 1st December to 31st March when dredging operations on the bar will be resumed and it is hoped that before next monsoon the channel will be passable for all vessels using the port. In the meantime the "Lord Willington" is continuing work on the reclamation ground and by December we should have at least 120 acres reclaimed.

At this stage many important questions arise and, at the risk of taking up too much of your time, I will touch briefly on them.

The time has arrived, I think, when the Mercantile Community should have a greater say in the expenditure

incurred in the Port and this can only be done by the formation of the Port Trust. As you are aware the Cochin Port Trust Bill was passed some three years ago, but the stumbling block to its formation has been the difficulty experienced by the Madras Government and the Cochin Durbar to come to any agreement as to the Port Limits.

Both Governments and particularly that of Cochin are naturally very zealous of their territorial rights, but I think that if it could only be appreciated that the Port Trust only requires administrative control over the water and foreshores of the harbour and has no desire to interfere with the Sovereignty of their territory, a settlement of this question could easily be arrived at. It must, however, be realised that this control must be exercised over far wider limits than the actual waters in the harbour itself. Another important point which now needs consideration is the use to which the reclamation land is to be put. A special Sub-Committee on which the Chamber is represented by Mr. Pitcairn is now dealing with this matter. A pilot service is now being arranged—at least one European pilot is to be engaged. I think the time has come when the wireless station to serve the port is very necessary.

By May next we shall have completed the 3rd stage of the harbour scheme and I think that we shall then need to have a very tight hold on the purse strings. Success in the scheme up to that stage will undoubtedly encourage in the enthusiasts both here and in Government the wish to proceed straightaway with the 4th stage, the building of wharves, jetties, etc. The Chamber has always advocated a halt after completion of the 3rd stage and that the harbour should then be allowed to develop slowly as the trade of the port justifies it. We must not now allow expenditure to run away with us. The future success of the Cochin Harbour depends on the

cost of opening and upkeep and we cannot go in for extravagant schemes of extension until we have secured the trade. Stage 4 to my mind will never be completed. It will be a slow development carried on naturally as trade justifies it and money is available. I should like at this stage to again offer our congratulations to Mr. Bristow and all associated with him on the success so far achieved—a feat which at this time last year this Chamber did not think could be accomplished.

Another very important factor in the ultimate success of our harbour is—

RAILWAYS.—I believe I am right in saying that the position so far as the Ernakulam-Shoranur line is concerned is that the Railway Board are willing to proceed with broad gauging this line almost immediately and the Government of India are willing to advance the necessary money to the Cochin State. The State, however, very naturally is not, or has not been, prepared to commit itself to the heavy expenditure until they were assured that the ultimate success of the harbour project was assured. Now that it has been demonstrated that steamers can come inside and load, I hope that the Sircar will decide to shoulder the burden and sanction the work being put in hand.

Another projected railway is that linking up Travancore with Ernakulam. I am afraid I have very little information regarding this scheme. I have always doubted the wisdom of this project as in my opinion the traffic cannot be expected to develop to an extent commensurate with the cost, where water transport is available it will never pay to send goods by rail. ✓

MEDICAL.—The long-felt want of a European Doctor of our own has been realised during the year.

MUNICIPAL.—The Chamber has during the year been called upon to take more interest in the local

Municipal matters than it had done in the past. Our Municipal fathers are now very ably led by Mr. Campbell and we all hope that now that the heavy yoke of the hospital expenditure has been removed from their necks they will be able to initiate schemes for the improvement of our town.

In another two months' time Cochin will see another long-felt want accomplished. It will be possible by means of the Alleppey-Cochin road to get out of Cochin without crossing the backwater.

The Alleppey-Cochin telephone line is still a possibility on the horizon. I believe that I am right in saying that an agreement for its erection has been reached between the Telegraphs Department and Travancore Sircar and it is now only a matter of the usual Government Department's delays before the work is put in hand.

The Chamber is again indebted to the Madras Chamber who kindly agreed through Mr. C. E. Wood to represent us at the Associated Chambers Conference. I hope that this year it will be found possible to send our own representative. Cochin with its harbour is becoming a more important centre and it is up to us, if possible, to make our weight felt by sending our own representative to this Conference rather than relying on the good services of outsiders who, although able to represent commercial views on political subject of general interest to the European Commercial Community of India, cannot speak with knowledge on matters which may be of particular interest to us in Cochin. It must also be remembered that in our efforts to attract trade to our part we may at times find ourselves in direct opposition to our Madras friends in matters of railway policy, ocean freights and other similar subjects which may come before the Associated Chambers.

We were also unable to send a representative to the conferences convened by the Association in connection with our Memorandum to be submitted to the Indian Statutory Commission and were represented at these conferences by Sir James Simpson to whom our thanks are due. The Chamber has associated itself in this Memorandum with the majority of the other Chambers and I am sure that it is generally admitted that in it the European Commercial Community have gone very far to show our sympathy with Indian aspirations.

Gentlemen, I think I have touched upon most of our activities for the year. It only remains for me to thank you for the support you have given me and I should like especially to thank our Honorary Secretary for the very hard work he has put in in our interests.

I now beg to move that the Committee's Report and Accounts for the year be adopted and will ask Mr. Baechtold to second this.

The resolution was seconded by Mr. Baechtold of Messrs. Volkart Bros. who desired to take the opportunity of expressing thanks to the Chairman, Honorary Secretary and Committee for the valuable services to the Chamber during their year of office.

SURVEY REPORTS AND ARBITRATION AWARDS.

Whereas it has been represented to the Cochin Chamber of Commerce that it is desirable to give Survey Reports and Arbitration Awards an official character, the following Rules (in which the word "Arbitrator" includes "Surveyor") have been passed by the Chamber for the attainment of that end:—

Rule I. Certain gentlemen, who have been nominated and unanimously elected by ballot by the Committee of the Chamber, shall be appointed Arbitrators to the said Chamber of Commerce; but the Chamber reserves the right of cancelling the first and all future appointments by a majority of votes of the Committee of the Chamber by ballot.

Rule II. References to the Chamber may be made—

(1) If both parties to a contract state their willingness in writing to abide by the decision of the Arbitrator selected by the Committee from the above list, or subsequent additions thereto.

(2) If one of the parties to a contract state in writing that one of the conditions of the contract in dispute be that a reference lies by him to the Chamber of Commerce.

Rule III. No Arbitrator shall adjudicate in a matter in which he or his employers are interested, and no two Arbitrators connected with the same firm shall be selected to settle any dispute.

Rule IV. The Chairman shall select the Arbitrators in rotation from the authorised list, subject to the provisions of Rule III.

Rule V. One or more Arbitrators shall be appointed for the settlement of each matter under reference, according to the wishes of the person or persons referring the question to the Chamber. In the event of no special number of Arbitrators being agreed to, one only shall be appointed.

Rule VI. The names of Arbitrators shall not be made known to any persons whatever, except as provided in Rule XVIII.

Rule VII. The approved list of Arbitrators under these Rules shall be circulated annually, or whenever asked for, to all Members of the Chamber and shall be supplied to any party applying for the same.

Rule VIII. Before any Arbitration shall be entertained, a deposit of Rs. 16 for each Arbitrator, and Rs. 16 for an Umpire (in case the number of Arbitrators asked for be an even number), and Rs. 16 for the Chamber of Commerce for *each contract*, together with the value of stamp under Act I of the Indian Stamp Act, 1879, required on the Award, shall be made with the Chairman. Fees not expended will be returned to the depositor.

In cases where neither of the parties to the application shall be subscribing Members of the Chamber of Commerce, the fees payable shall be double those mentioned in the preceding part of this Rule, and the said enhanced fees shall be divided equally between the Arbitrators and Umpire of the one part and the Chamber of Commerce of the other part.

Rule IX. As soon as possible after applying for Arbitration under the Chamber's Rules, each of the parties shall submit in writing a statement of the matter in dispute; the original of such statement shall be signed, but for the use of the Arbitrator the parties shall submit an unsigned copy of their statements.

A joint statement may be signed and sent in, but with unsigned copy thereof.

The original contract, or an attested copy, must accompany every reference.

Rule X. In the event of the Arbitrators not being able to come to a decision by a majority of votes, the Chairman shall request the next Arbitrator on the list to act as Umpire to decide the matter, and his decision shall be final, and need not necessarily agree with that of either of the Arbitrators.

Rule XI. Arbitrators and Umpires shall have the right to call for such evidence as they may deem necessary, but shall not have the right to take the opinion or assistance of Attorneys or Counsel.

Rule XII. Arbitrators and Umpires shall, as far as possible, support their Awards by a statement of the reasons upon which the same may be founded.

Rule XIII. If the seller shall have offered an allowance equal to, or more than, the allowance granted by the Arbitrator; then the whole cost of the Survey or Arbitration shall fall on the buyer. If the buyer have offered to accept an allowance equal to, or less than, the allowance decided by the Arbitrator, then the whole cost of the Survey or Arbitration shall fall upon the seller. If the Arbitrator awards no allowance, the whole cost of the Arbitration shall fall on the buyer. In all other cases the Award shall state which of the parties to the Arbitration is liable for the payment of the Arbitration fees.

Rule XIV. All decisions shall be submitted in writing to the Chairman who shall then, without disclosing the names of the Arbitrators, communicate the result to the parties concerned.

Rule XV. A record of all Arbitrations shall be kept in the office of the Chamber of Commerce, and shall be open at all times to the inspection of Members of the Chamber; but such record shall not disclose the names of the parties concerned in such Arbitrations.

Rule XVI. Both the parties to an Arbitration shall, on application, be entitled to receive from the Chairman of the Chamber of Commerce a certified copy of the Award under his signature. For each copy of such certificate a fee of Rs. 3-8 shall be payable to the Chamber of Commerce.

Rule XVII. The insertion of a clause is recommended in all contracts made with dealers to the effect that in the event of any dispute, the parties to the contract agree to abide by the decision of an Arbitrator or Arbitrators appointed by the Chamber of Commerce under its Rules for Survey Reports and Arbitration Awards; but it is decided that the insertion of such clause is optional, and that Members of the Chamber are in no way bound to submit disputes to Arbitration under these Rules in the absence of such clause in their agreements with dealers.

Rule XVIII. Should parties to an Arbitration require the attendance of the Arbitrator in a suit pending in the Law Courts in which an Award of the Chamber is to be produced in evidence, the Chairman is authorised to give the name of such Arbitrator upon receipt of a requisition by either party stating that it is for that purpose only that the information is desired.
