TABLE IV

AGE, SEX AND CIVIL CONDITION BY RELIGION

1. The table is divided into two parts. Part I contains the statistics of the population of taluks by religion, age, sex and civil condition and Part II gives similar statistics for municipal towns.

2. The ages are arranged in quinary groups up to 70 and the remaining ages are shown under the group "70 and over."

3. The age recorded at this census is the nearest age and not the number of years completed as at the last census.

4. Divorced persons have been entered as "Widowed." Persons recognized by custom as married have been shown as such even though they have not gone through any formal ceremony.
